

# Company Auto Configuration

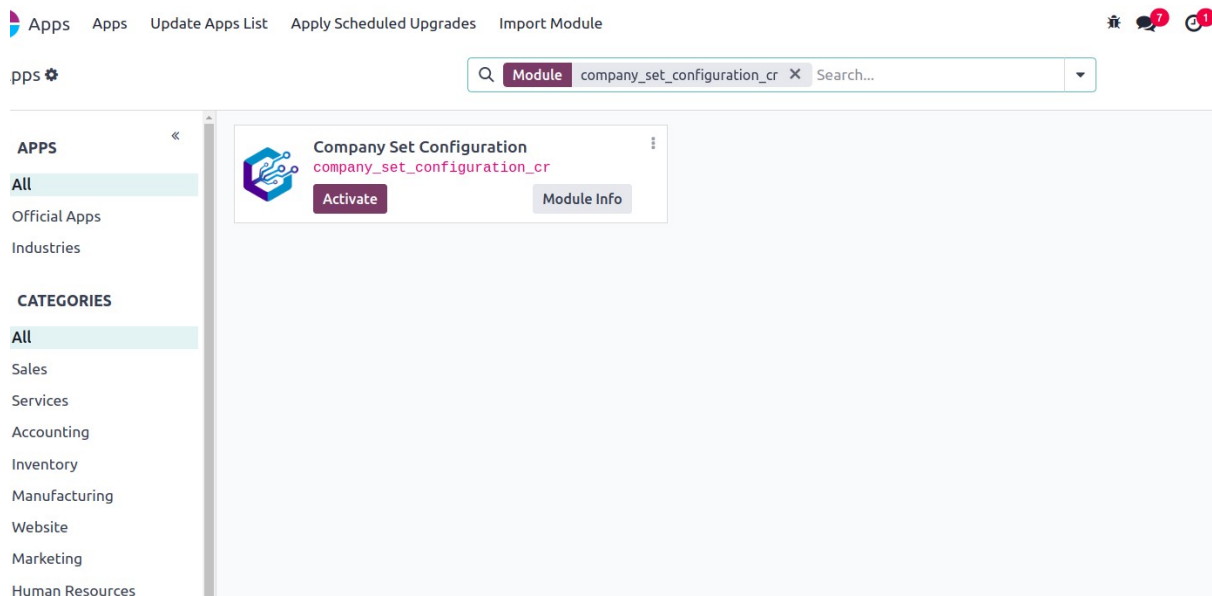

Module Name - company\_set\_configuration\_cr

Branch Name - company\_set\_configuration\_cr\_18.0

- This module automates the configuration of crucial company settings, such as warehouse, chart of accounts, analytic plan, sub-plan, and account, during the company setup process.
- By eliminating the need for manual configuration, it ensures a faster and error-free setup.

**Let's see how we can implement this feature in Odoo.**

- First, go to the Apps menu, search for the company\_set\_configuration\_cr module, and activate it.

- Navigate to Settings > Users, select the user you want to grant access to auto company configuration, and enable the Show Company Configuration option.
