

# Payment Thai Qr

Module Name - payment\_thai\_qr\_pos\_cr

Branch Name – payment\_thai\_qr\_pos\_cr\_18.0

**Let's see how we can implement this feature in Odoo POS.**

- First, activate the payment\_thai\_qr\_pos\_cr module. Go to the Point of Sale menu, then navigate to Configuration, and under Configuration, select Payment Methods.
- In Thai Qr there are three Payment type ( [PROMPTPAY](#), [RABBIT LINPAY](#), [TRUEMONEY](#) )
- Create or Select Payment method Choose Payment type

The screenshot shows the Odoo POS Configuration - Payment Methods screen. The 'Method' dropdown is set to 'Prompt pay'. The 'Is Prompt Payment' checkbox is checked. The 'Integration' field is set to 'None required'. The 'Online Payment' checkbox is unchecked. The 'Identify Customer' checkbox is unchecked. The 'Journal' is set to 'Bank'. The 'Company' is set to 'My Company (San Francisco)'. A red box highlights the 'Method' dropdown and the 'Is Prompt Payment' checkbox.

- Go to the Point of Sale menu, then navigate to Configuration, and under Configuration, select Settings and Configure all required details for Thai Qr.

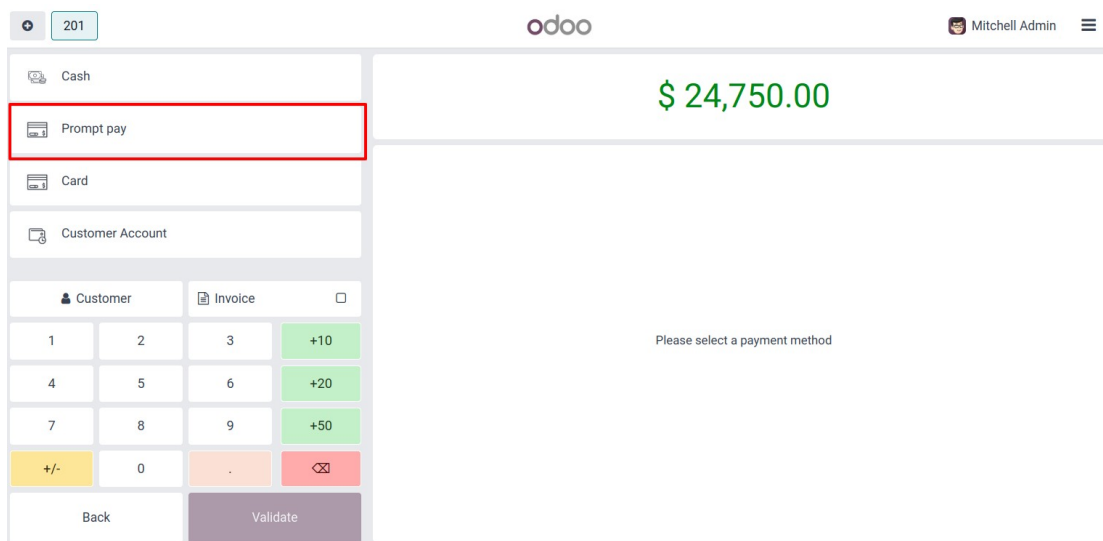

The screenshot shows the Odoo Point of Sale Configuration - Settings page. The left sidebar contains a menu with 'Point of Sale' selected. The main content area is divided into sections: 'General Settings', 'Tips', 'ThaiQR Credentials', and 'PoS Interface'. The 'ThaiQR Credentials' section is highlighted with a red box and contains the following fields:

- ThaiQR Url:
- ThaiQR Submerchant ID:
- ThaiQR Call Back Url:
- ThaiQR User:
- ThaiQR Password:

The 'PoS Interface' section contains several checkboxes and options:

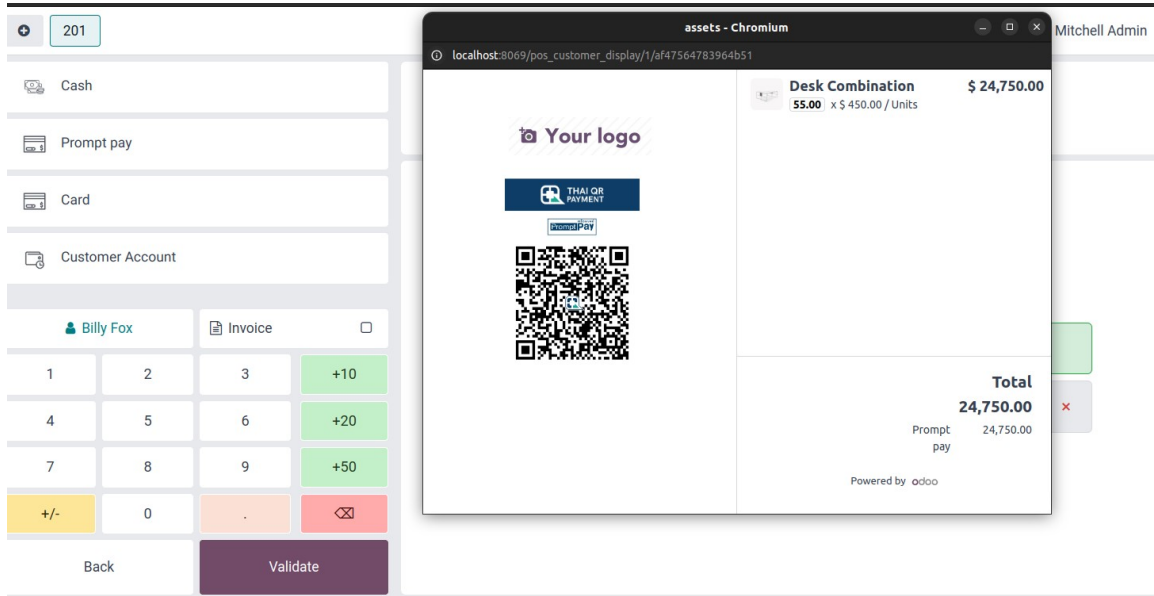

- ☐ Log in with Employees: Allow to log and switch between selected Employees
- ☐ Large Scrollbars: Improve navigation for imprecise industrial touchscreens
- ☐ Share Open Orders: Allow to access each other's active orders
- ☒ Hide pictures in POS: Self-ordering interfaces are not impacted.
- ☒ Show product images
- ☒ Show category images

- After that, add an order, select the payment method.

The screenshot shows the Odoo Point of Sale interface. The top bar displays the Odoo logo and the user 'Mitchell Admin'. The main content area is divided into two sections. The left section contains a list of payment methods: 'Cash', 'Prompt pay' (highlighted with a red box), 'Card', and 'Customer Account'. Below this is a grid of buttons for adding items to the order, including '1', '2', '3', '4', '5', '6', '7', '8', '9', '+10', '+20', '+50', '+/-', '0', and 'Validate'. The right section displays the total amount '\$ 24,750.00' in green. Below the total, there is a message 'Please select a payment method'.

- After selecting payment method, you can see Qr code in Customer Display

The screenshot displays the CandidRoot POS system interface. On the left, there is a sidebar with a top bar showing '201'. Below this, there are buttons for 'Cash', 'Prompt pay', 'Card', and 'Customer Account'. A section for 'Billy Fox' includes an 'Invoice' button and a grid of buttons for numerical input (1-9, +10, +20, +50, +/-, 0, ., and a red button with a crossed-out envelope). At the bottom of the sidebar are 'Back' and 'Validate' buttons. The main area shows a 'assets - Chromium' window titled 'localhost:8069/pos\_customer\_display/1/af47564783964b51'. This window is divided into two panels. The left panel features a 'Your logo' placeholder, a 'THAI QR PAYMENT' logo, and a large QR code. The right panel displays the transaction details: 'Desk Combination' for \$24,750.00, with a unit price of \$55.00 and a quantity of 450.00 units. Below this, the 'Total' is shown as \$24,750.00, with a 'Prompt pay' button. At the bottom right, it says 'Powered by odoo'.
