## 2. Determine the price according to the product category (use the same price)

### 1. Create pricelist Configuration as shown in screen shot.

The screenshot shows the 'Pricelists' configuration screen in Odoo. A single price rule is defined for the 'Category: All / Home Construction' with a fixed price of \$90.00, minimum quantity of 1.00, and no specific start or end date. The rule is highlighted with a red box.

| Apply on                          | Price    | Min. Quantity | Start Date | End Date |
|-----------------------------------|----------|---------------|------------|----------|
| Category: All / Home Construction | \$ 90.00 | 1.00          |            |          |

The screenshot shows the 'Open: Pricelist Rules' dialog. The rule configuration is as follows:

- Apply To:** Category (radio button selected)
- Category:** All / Home Construction
- Price Type:** Fixed Price (radio button selected)
- Fixed Price:** 90.00
- Min Qty:** 1.00
- Validity Period:** Not specified

At the bottom, there are 'Save' and 'Discard' buttons.

2. Now create a sales order with this product category product and apply pricelist as shown in screen shot.

| Product Variant            | Quantity | Unit Price | Taxes | Disc.% | Amount    |
|----------------------------|----------|------------|-------|--------|-----------|
| Furniture Assembly         | 1.00     | 90.00      | 15%   | 0.00   | \$ 90.00  |

## Configuring and Applying Pricelists in POS

To set up and use pricelists in your POS system, follow these steps.

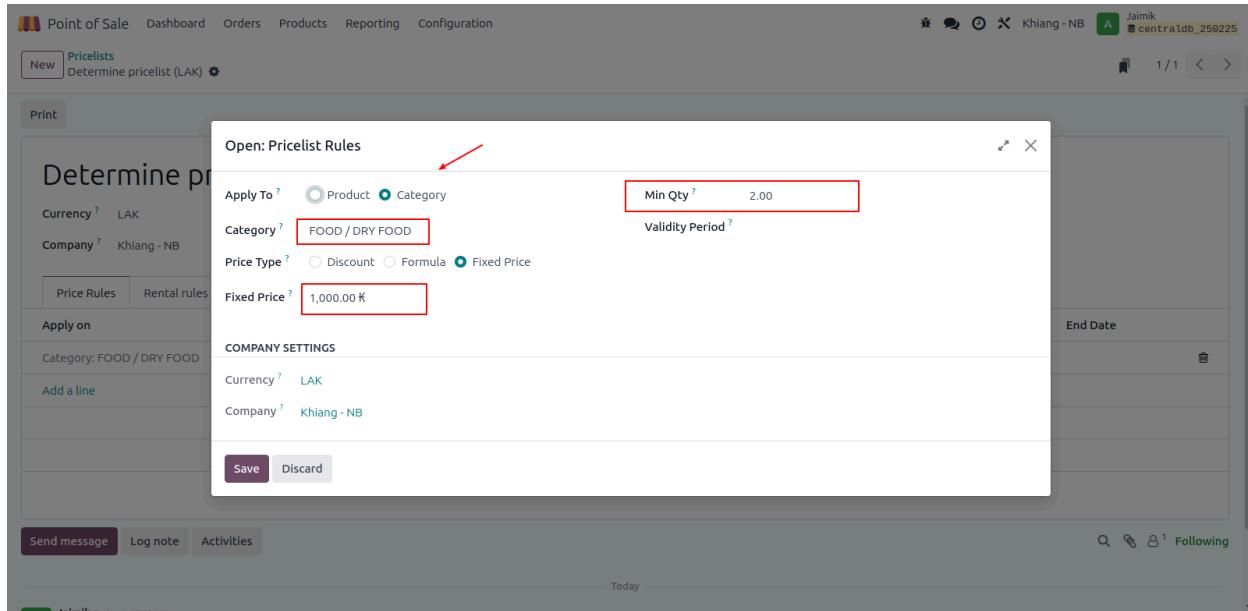

- Create a Pricelist as shown in the screenshot.

| Apply on                  | Price      | Min. Quantity | Start Date | End Date |
|---------------------------|------------|---------------|------------|----------|
| Category: FOOD / DRY FOOD | 1,000.00 ₡ | 2.00          |            |          |

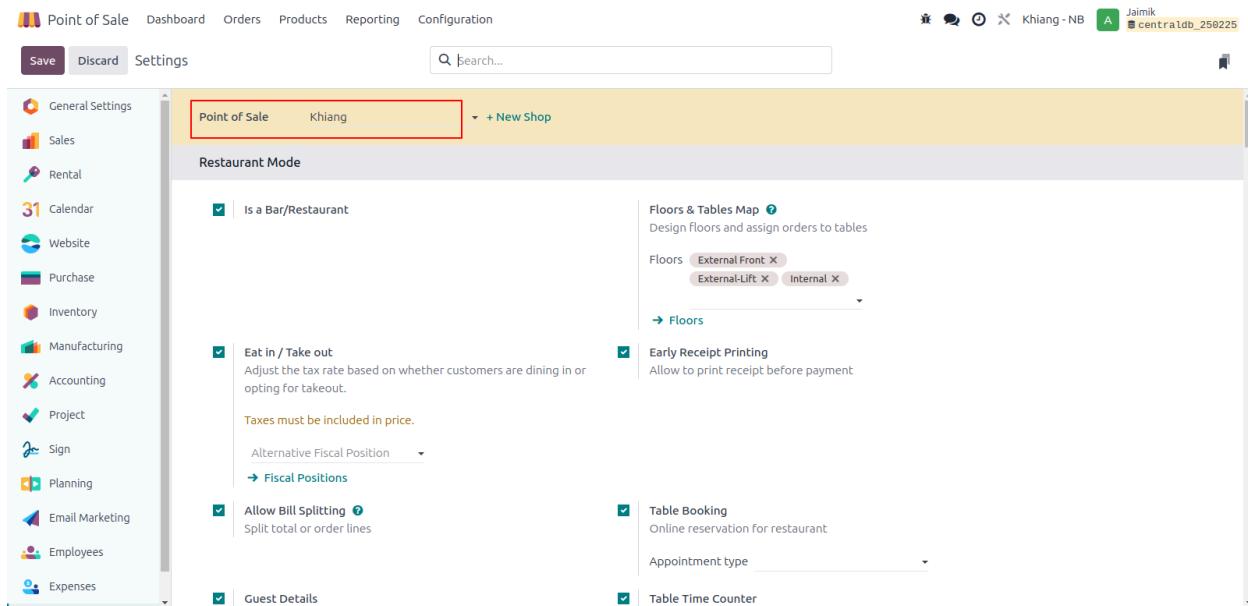

Activity Stream:

- Khiang - NB Jaimik centraldb\_250225 1 / 1

- Assign a category, define a fixed price, and set the minimum quantity for the product.

- Open POS Settings and select the POS terminal where you want to apply the pricelist. Then, choose the available pricelist and set the default pricelist accordingly.

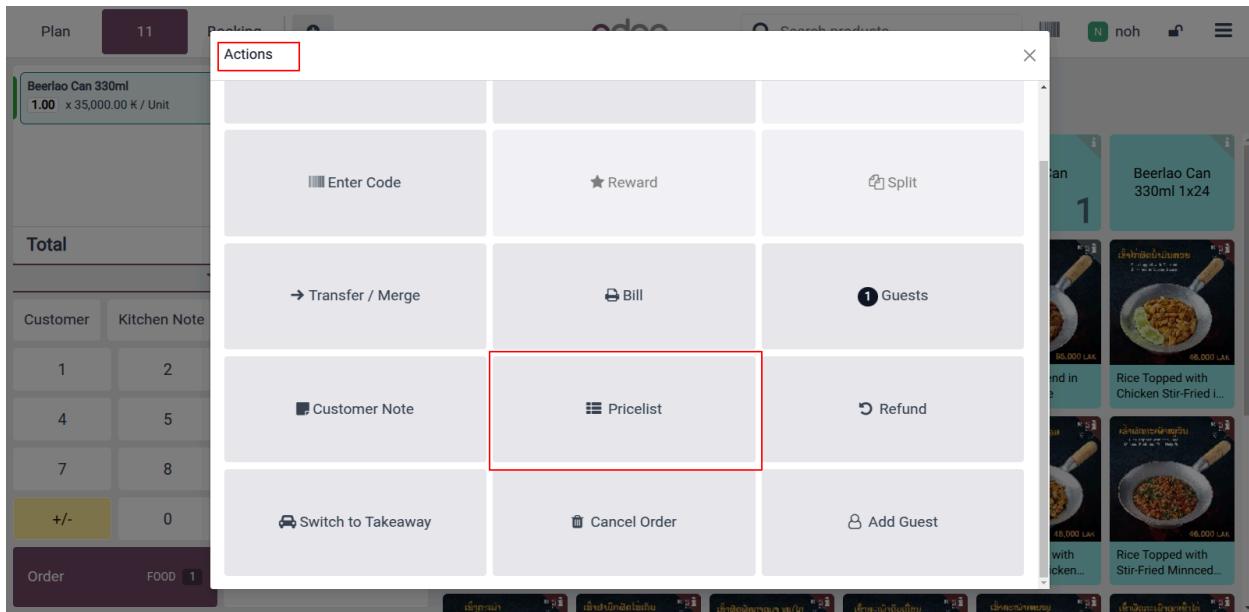

The screenshot shows the Odoo Point of Sale settings page. On the left, there's a sidebar with various menu items like General Settings, Sales, Rental, etc. The main area is titled 'Point of Sale' and has a 'Pricing' tab selected. A red box highlights the 'Pricing' tab. Under 'Flexible Pricelists', there are two dropdown menus: 'Available' set to 'Determine pricelist (LAK)' and 'Default' set to 'Determine pricelist (LA)'. Red arrows point to these dropdowns. Other sections include 'Price Control', 'Product Prices', 'Line Discounts', and 'Promotions, Coupons, Gift Card & Loyalty Program'.

## Launch the POS system and configure the price list before processing transactions. To do this:

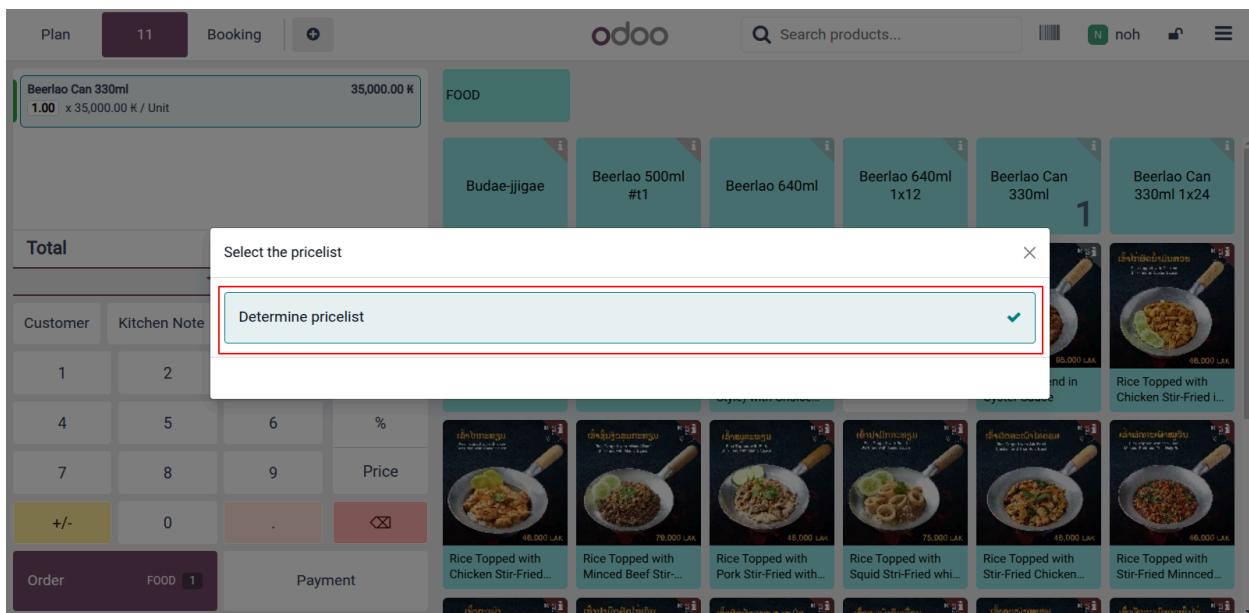

- Click on the "Action" button.

The screenshot shows the Odoo Point of Sale transaction screen. At the top, it says 'Plan' and 'Booking'. The main area shows a table for entering items and a grid of food products. A red box highlights the 'Actions' button in the table header. The table columns are Customer, Kitchen Note, Actions, Qty, %, Price, and a numeric keypad. The grid below shows various food items with their names, descriptions, and prices in LAK.

| Customer | Kitchen Note | Actions | Qty | % | Price |
|----------|--------------|---------|-----|---|-------|
| 1        | 2            |         | 3   |   |       |
| 4        | 5            |         | 6   |   |       |
| 7        | 8            |         | 9   |   |       |
| +/-      | 0            |         | .   |   |       |

- Select "Pricelist" and choose the appropriate pricelist.

- Add two units of "Beerlao Can 330ml" to the cart. The system will automatically apply the fixed price of 1,000 Kip per unit.

The screenshot shows the Odoo POS interface. The cart summary at the top left shows "Beerlao Can 330ml" with a quantity of "2.00" and a total price of "2,000.00 K". A red box highlights the total price. Below the cart summary is a table for entering customer details and kitchen notes. To the right is a grid of food items. The "Beerlao Can 330ml" item is listed twice in the grid, with the second instance having a red number "2" above it. The total count of "Beerlao Can 330ml" in the cart is also displayed as "2".

| Customer | Kitchen Note | Actions |
|----------|--------------|---------|
| 1        | 2            | Qty     |
| 4        | 5            | %       |
| 7        | 8            | Price   |
| +/-      | 0            | .       |

Order FOOD 2 Payment

| Category | Item                                      | Description | Price |
|----------|---|-------------|-------|
| FOOD     | Budae-jjigae                              |             |       |
| FOOD     | Beerlao 500ml #t1                         |             |       |
| FOOD     | Beerlao 640ml                             |             |       |
| FOOD     | Beerlao 640ml 1x12                        |             |       |
| FOOD     | Beerlao Can 330ml                         |             |       |
| FOOD     | Beerlao Can 330ml 1x24                    |             |       |
| GIFT     | GIFT CARD                                 |             |       |
| FOOD     | Rice Topped with Chicken Stir-Fried...    | 48,000 LAK  |       |
| FOOD     | Rice Topped with Minced Beef Stir...      | 78,000 LAK  |       |
| FOOD     | Rice Topped with Pork Stir-Fried with...  | 48,000 LAK  |       |
| FOOD     | Rice Topped with Squid Stri-Fried with... | 78,000 LAK  |       |
| FOOD     | Rice Topped with Stir-Fried Chicken...    | 48,000 LAK  |       |
| FOOD     | Rice Topped with Stir-Fried Minced...     | 48,000 LAK  |       |

This screenshot shows the Odoo POS interface after adding another unit of "Beerlao Can 330ml" to the cart. The cart summary now shows "Beerlao Can 330ml" with a quantity of "3.00" and a total price of "3,000.00 K". A red box highlights the total price. The rest of the interface is identical to the previous screenshot, including the customer table and the food grid where the "Beerlao Can 330ml" item appears three times.

The screenshot shows the configuration of a reward type named 'Discount'. Under the 'REWARD' section, 'Discount Type' is selected. A red box highlights the 'Discount' field set to 30.00% and the 'on' dropdown set to 'Specific Products'. In the 'DISCOUNT' section, 'Max Discount' is set to \$9,000.00. A red box highlights the 'Domain' dropdown which is set to 'Match all records' and includes a link to '147 record(s)'. The 'Discounted Products' dropdown is set to '[E-COM07] Large Cabinet'. The 'POINTS' section shows a value of 1.00 for 'In exchange of'. At the bottom, there are 'Save', 'Discard', and 'Delete' buttons.

- After creating configuration, create a sales order with a defined product.

The screenshot shows the Odoo Sales Quotation interface for quotation S00053. The top navigation bar includes Sales, Orders, To Invoice, Products, Reporting, and Configuration. A sub-menu bar shows New, Quotations, S00053, and a gear icon. Action buttons at the top include Send by Email, Confirm, Preview, and Cancel. A breadcrumb trail on the right shows Quotation > Quotation Sent > Sales Order. The main area displays customer details (Azure Interior, Colleen Diaz), quotation terms (Expiration: 02/26/2025, Quotation Date: 01/27/2025 11:24:12, Pricelist: End of Following Month), and a single line item for a Large Cabinet. Below the table are buttons for Add a product, Add a section, Add a note, and Catalog. At the bottom right, there are buttons for Coupon Code, Reward (which is highlighted with a red box), and Discount. The reward section shows Point 3 Sale order (customize point) and totals for Untaxed Amount (\$ 10,000.00) and Total (\$ 10,000.00).

- After creating a sale order please click on the reward button and apply the reward type as shown in the screenshot.

The screenshot shows the Available Rewards dialog box. It asks to choose a reward and lists several options, with "Point 3 - 10% on Large Cabinet" selected (highlighted with a red box). Other options include Point 1 - 20% on specific products, Point 4 - 10% on Large Cabinet, Point 4 - 20% on Large Cabinet, Point 4 - 30% on Large Cabinet, Point 14 - \$ 1000 on Large Cabinet, Point 3 - 20% on Large Cabinet, and Point 3 - 30% on Large Cabinet. At the bottom are Apply and Discard buttons, with Apply highlighted with a red box.

- Once you apply the reward program you can see one more discounted order line. As shown in the screenshot below.

- After creating a sale order click on the reward button and apply the reward program.

The screenshot shows the Available Rewards dialog box. It has a title bar with the user name Mitchell Admin and a close button. The main content area is titled "Available Rewards" and contains the heading "Choose your reward: ?". Below it is a list of reward options, with the first option, "Point 3 - 30% on Large Cabinet", selected (indicated by a blue circle and checked). Other options include Point 1, Point 4, Point 14, Point 3, Point 11, and Point 12. At the bottom are two buttons: "Apply" (highlighted with a red box) and "Discard". A footer bar at the bottom of the dialog box contains tabs for Coupon Code, Reward (which is highlighted with a red box), and Discount.

- After applying the reward program in sale order you can see the discounted order line as shown in the screenshot below.

The screenshot shows the Odoo Sales Quotation interface for quotation S00055. The top navigation bar includes Sales, Orders, To Invoice, Products, Reporting, and Configuration. A breadcrumb trail at the top right shows Quotation > Quotation Sent > Sales Order. Action buttons include New, Quotations, S00055, Send by Email, Confirm, Preview, and Cancel.

**Quotation Details:**

- Customer:** Azure Interior, Colleen Diaz  
4557 De Silva St  
Fremont CA 94538  
United States – US12345677
- Expiration:** 02/26/2025
- Quotation Date:** 01/27/2025 11:25:25
- Pricelist:**
- Payment Terms:** End of Following Month

**Quotation Template:**

**Order Lines:**

| Product                 | Quantity | Unit Price | Taxes | Disc.% | Amount       |
|-------------------------|----------|------------|-------|--------|--------------|
| [E-COM07] Large Cabinet | 3.00     | 10,000.00  |       | 0.00   | \$ 30,000.00 |
| 30% on Large Cabinet    | 1.00     | -9,000.00  |       | 0.00   | \$ -9,000.00 |

**Buttons:** Add a product, Add a section, Add a note, Catalog.

**Point 3 Sale order (customize point)**

**Discount Summary:**

- Untaxed Amount: \$ 21,000.00
- Total: \$ 21,000.00

- Now create one more sale order with quantity 4 and 10 and after the apply reward program you can see the discounted sale order line in sale order as shown in the screeenshot.

## Launch the POS session

- Add 3 units of '**Beerlao Can 330ml**' to the cart. Then click on the '**Action**' button to apply rewards.

The screenshot shows the Odoo POS interface. On the left, a sidebar displays a cart item: 'Beerlao Can 330ml' at 3,000.00 K, with a quantity of 3.00 x 1,000.00 K / Unit. The main area shows a grid of food items under the 'FOOD' category. The item 'Beerlao Can 330ml' is highlighted with a red box and has a quantity of 3 displayed next to it. The total value for the cart is 3,000.00 K.

This screenshot shows the same Odoo POS interface as the previous one, but with a different focus. The 'Actions' button in the sidebar is highlighted with a red box. The cart still contains the 'Beerlao Can 330ml' item at 3,000.00 K, with a quantity of 3. The main grid of food items remains visible on the right.

- After creating Configuration create a sales order with define product as shown in screenshot.

The screenshot shows the Odoo Sales Quotation interface. At the top, there are tabs for Sales, Orders, To Invoice, Products, Reporting, and Configuration. Below that, a sub-menu for Quotations is open, showing 'New' and 'Quotations S00059'. The main area displays a sale order with ID S00059. The customer information is Azure Interior, Colleen Diaz, located at 4557 De Silva St, Fremont CA 94538, United States – US12345677. The quotation template is set to 'End of Following Month'. The product line includes '[E-COM07] Large Cabinet' with a quantity of 1.00, unit price of 10,000.00, and total amount of \$ 10,000.00. Below the table, there are buttons for 'Add a product', 'Add a section', 'Add a note', and 'Catalog'. On the right, there are buttons for 'Coupon Code', 'Reward' (which is highlighted with a red box), and 'Discount'. The reward section shows 'Untaxed Amount: \$ 10,000.00' and 'Total: \$ 10,000.00'.

- After creating a sale order click on the reward button and apply the reward program as shown in the screenshot.

The screenshot shows a modal dialog titled 'Available Rewards'. It asks 'Choose your reward: ?' and lists several options:
 

- Point 1 - 20% on specific products
- Point 4 - 10% on Large Cabinet
- Point 4 - 20% on Large Cabinet
- Point 4 - 30% on Large Cabinet
- Point 3 - 10% on Large Cabinet
- Point 14 - \$ 1000 on Large Cabinet
- Point 3 - 20% on Large Cabinet
- Point 3 - 30% on Large Cabinet

 At the bottom, there are 'Apply' and 'Discard' buttons, with 'Apply' being highlighted with a red box.

- After the apply reward program you can see the discontinued sale order line in sale order as shown in the screenshot.

Point 4 Sale order (customize point) Untaxed Amount: \$ 16,000.00 Total: \$ 16,000.00

- Now create a sales order with product quantity 3 and then apply the reward as shown in screenshot.

The screenshot shows the Odoo Sales Quotation interface. At the top, there are tabs for Sales, Orders, To Invoice, Products, Reporting, and Configuration. Below that, a sub-menu for Quotations is shown with a New button and one existing entry: S00061.

The main area displays a quotation with the ID S00061. It includes customer information (Azure Interior, Colleen Diaz, address: 4557 De Silva St, Fremont CA 94538, United States – US12345677), expiration date (02/27/2025), quotation date (01/28/2025 10:11:15), pricelist (Pricelist), and payment terms (End of Following Month).

The quotation template is set to "Order Lines". The product list contains one item: [E-COM07] Large Cabinet, quantity 3.00, unit price 10,000.00, and total amount \$ 30,000.00. The "Reward" tab in the discount section is highlighted with a red box.

Below the product list, there are buttons for Add a product, Add a section, Add a note, and Catalog. The discount summary shows Untaxed Amount: \$ 30,000.00 and Total: \$ 30,000.00.

A modal window titled "Available Rewards" is open, showing reward options. The option "Point 4 - 30% on Large Cabinet" is selected and highlighted with a red box. The "Apply" button in the modal is also highlighted with a red box.

- Once you apply the reward program you can see the discounted sale order line as shown in the screenshot.

The screenshot shows the Odoo Sales Quotation interface for a quotation named S00061. The top navigation bar includes Sales, Orders, To Invoice, Products, Reporting, and Configuration. The current screen is titled 'Quotations' with the ID S00061.

**Quotation Details:**

- Customer:** Azure Interior, Colleen Diaz, 4557 De Silva St, Fremont CA 94538, United States – US12345677
- Expiration:** 02/27/2025

**Save**   **Discard**   **Delete**

Open POS session and add **2 units** of '**Beerlao Can 330ml**' product. And click on the '**Action**' button to apply for a reward.

Then click on the Reward button.

The screenshot shows the Odoo POS interface. At the top, there are tabs for 'Plan', '11', and 'Booking'. Below these, a product line item for 'Beerlao Can 330ml' is listed with a quantity of '2.00 x 1,000.00 K / Unit'. A 'Total' section shows a value of '2,000.00 K'. To the right, a sidebar displays various food items with their names and prices in LAK. An 'Actions' menu is open, containing several options: 'General Note', 'Quotation/Order', 'Reset Programs', 'Enter Code' (with a red box around it), 'Reward' (also with a red box around it), 'Split', 'Transfer / Merge', 'Bill', 'Guests', 'Customer Note', 'Determine pricelist (LAK)', 'Refund', 'Switch to Takeaway', 'Cancel Order', and 'Add Guest'. The 'Reward' button is specifically highlighted with a red border.

This screenshot shows the same Odoo POS interface as the previous one, but with some additional highlights. The 'Reward' button in the Actions menu is again highlighted with a red box. Additionally, a message in the main area indicating a discount is also highlighted with a red box: '20% on Beerlao Can 330ml' followed by '1.00 x -400.00 K / Unit'. The rest of the interface, including the product list and other menu options, appears identical to the first screenshot.

The screenshot shows the Odoo POS interface. At the top, there are tabs for 'Plan', '11' (highlighted), 'Booking', and a '+' button. The Odoo logo is in the center, and a search bar says 'Search products...'. Below the header, the main area displays a bill summary and a grid of food items.

**Bill Summary:**

- Beerlao Can 330ml: 2.00 x 1,000.00 K / Unit
- Discount: 30% on Beerlao Can 330ml (-600.00 K)
- Total: 1,400.00 K

**Customer Grid:**

| Customer | Kitchen Note | Actions |
|----------|--------------|---------|
| 1        | 2            | 3       |
| 4        | 5            | 6       |
| 7        | 8            | 9       |
| +/-      | 0            | .       |

**Food Grid:**

The grid shows various food items with their names, descriptions, and prices. A red box highlights the first item, 'Beerlao Can 330ml', which is the subject of the discount.

## 5. Set the bill discount as % or kip according to various conditions such as % Only the products that are included in the list, the minimum number of products, the minimum bill amount

- Create Configuration as shown in the screen shot.

2. Start a POS session and add the products we configured in Promotion and click on Action button to apply reward.

The screenshot shows the odoo POS interface. On the left, there's a summary of items: Beerlao 640ml (2.00 x 23,000.00 K / Unit) and Beerlao Can 330ml (3.00 x 35,000.00 K / Unit). Below this is a 'Total' section with a grid for Customer and Kitchen Note, showing values 1, 2, 4, 5, 7, 8, +/-, and 0. At the bottom, there are buttons for Order, FOOD (with value 5), and Payment.

The main area has a 'Search products...' bar and an 'Administrator' button. A context menu titled 'Actions' is open, containing the following options:

- General Note
- Quotation/Order
- ★ Reset Programs
- eWallet
- Enter Code
- ★ Reward** (highlighted with a red box)
- Split
- Transfer / Merge
- Edit Order Name
- 1 Guests
- Customer Note
- Pricelist
- Void
- Refund
- Tax

On the right side of the screen, there's a list of food items with their names and prices in Cambodian Riel (K).

This screenshot is similar to the first one, showing the same order summary and context menu. However, the 'Available rewards' dialog is now open in the center. It displays a single reward offer:

**P5**  
Add "20% on specific products"

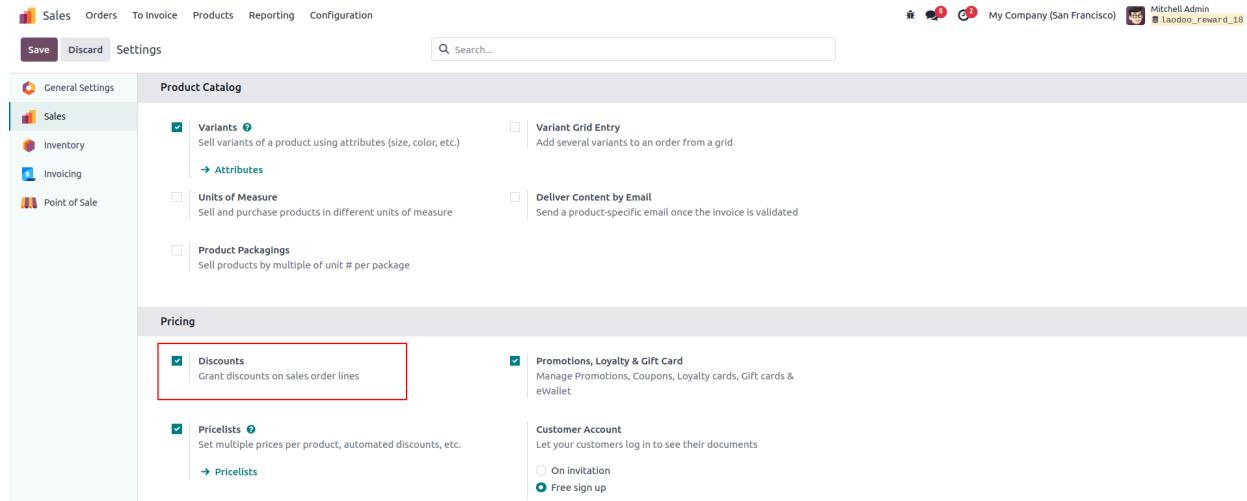

Below this dialog, the rest of the interface and the food item list on the right are visible.

**3.** We can see discounted is applied on order.

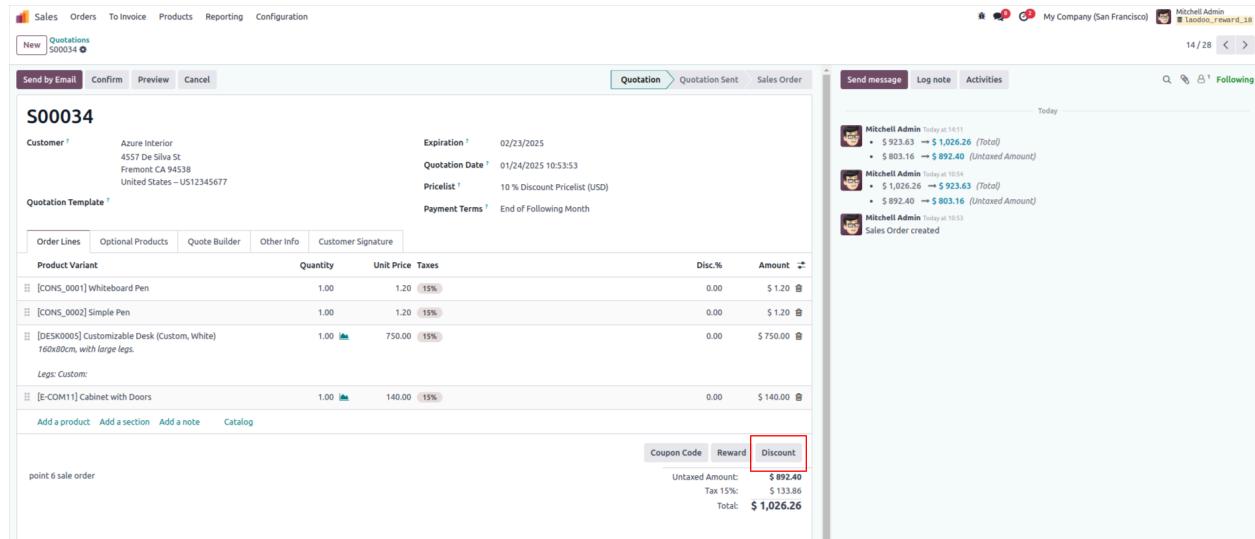

## 6. Cashier put a % discount at the end of bill in some bill (Global discount)

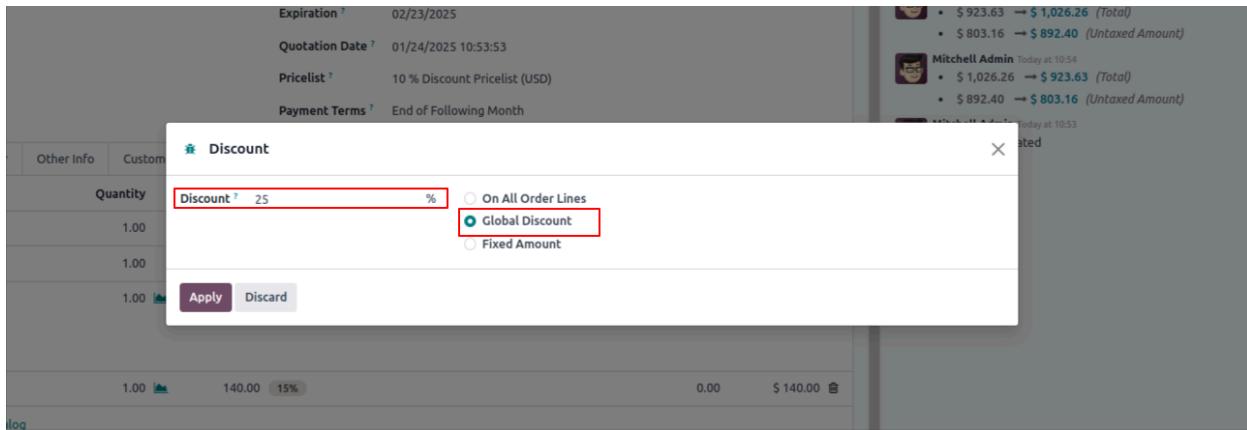

- Enable Discount option from sale order configuration as shown in screen shot.

- Create sale order and than click on discount button.

- Put the value of the discount amount and select the type of discount as shown in the screen shot.

## To apply Global discount at the end of the Bill

1. Open the POS configuration, select appropriate POS, and go to the Pricing section and **Enable Global discount** option and select the appropriate **Product** and add the **Percentage Discount** we want to apply at the end of Bill.

The screenshot shows the Odoo Configuration interface, specifically the 'Point of Sale' settings. On the left, a sidebar lists various modules: General Settings, Sales, Rental, Calendar, Website, Purchase, Inventory, Manufacturing, Accounting, Project, Sign, Planning, Email Marketing, Employees, Expenses, and Point of Sale (which is currently selected). The main area is titled 'Point of Sale' and shows 'Khiang' as the shop name. Under 'Restaurant Mode', several configuration options are listed with checkboxes:
 

- Is a Bar/Restaurant
- Eat in / Take out (with a note about tax rate adjustment)
- Allow Bill Splitting (with a note about splitting total or order lines)
- Guest Details (with a note about guest details)
- Floors & Tables Map (with a note about design floors and assign orders to tables) - this section includes 'External Front', 'External-Lift', and 'Internal' floor categories.
- Early Receipt Printing (with a note about printing receipt before payment)
- Table Booking (with a note about online reservation for restaurant) - this section includes 'Appointment type'
- Table Time Counter (with a note about table time counter)

 At the top of the configuration screen, there are 'Save' and 'Discard' buttons, a search bar, and user information: Khiang - NB.

Total 546,000.00 K

**3. Click on the ‘Action’ button then click on ‘Discount’ button.**

The screenshot shows the Odoo POS interface. On the left, there's a summary of items ordered:

- Beerlao 640ml: 2.00 x 23,000.00 K / Unit, Total: 46,000.00 K
- Beerlao 640ml 1x12: 1.00 x 200,000.00 K / Box, Total: 200,000.00 K
- Beerlao Can 330ml 1x24: 1.00 x 300,000.00 K / Box, Total: 300,000.00 K

**Total: 546,000.00 K**

Below the summary is a table for entering customer details and kitchen notes. The 'Actions' button is highlighted with a red box.

| Customer | Kitchen Note | Actions |       |
|----------|--------------|---------|-------|
| 1        | 2            | 3       | Qty   |
| 4        | 5            | 6       | %     |
| 7        | 8            | 9       | Price |
| +/-      | 0            | .       | ☒     |

At the bottom, it says Order FOOD 4 and Payment.

On the right, there's a grid of food items categorized under 'FOOD'. Some items have numbers above them (e.g., Beerlao 640ml 2, Beerlao Can 330ml 1x24). A 'GIFT CARD' option is also shown.

The screenshot shows the 'Actions' menu open from the previous screen. The menu has a grid of options:

|              |                    |                           |
|--------------|--------------------|---------------------------|
| General Note | Quotation/Order    | ★ Reset Programs          |
| Enter Code   | Reward             | ◆ Discount                |
| Split        | Transfer / Merge   | Bill                      |
| 1 Guests     | Customer Note      | Determine pricelist (LAK) |
| Refund       | Switch to Takeaway | Cancel Order              |

The 'Discount' button is highlighted with a red box.

#### 4. We can see Global Discount added on the entire Bill.

The screenshot shows the Odoo POS interface. On the left, a bill summary table includes items like Beerlao 640ml, Beerlao 640ml 1x12, and Beerlao Can 330ml 1x24, with a total of 546,000.00 K. Below this is a table for Customer, Kitchen Note, Actions, Qty, %, and Price. A modal window titled "Discount Percentage" is open, showing a numeric keypad with a red border around the number 30. To the right is a grid of food items with images and prices.

| Bill Summary  |                     |         |

• 23,000.00 K → 92,000.00 K (Untaxed Amount)

This screenshot shows the Odoo Sales Quotation interface for quotation S00027. A modal window titled 'Available Rewards' is open, prompting the user to 'Choose your reward:' and listing several options. One option, 'Point 7 - A - Free Product - Beerlao Can 330ml 1x6', is highlighted with a red box. The background shows the same product line and reward section as the previous screenshot, with the reward button also highlighted with a red box.

Screenshot of the Odoo Sales Quotation interface. A modal window titled "Available Rewards" is open, prompting the user to "Choose your reward:" from a list of two options: "Point 7 - A - Free Product - Beerlao..." and "Point 7 - B - Free Product - Budae-j...". The "Apply" button is highlighted with a red box.

The main quotation details are as follows:

- Customer:** Jaimik
- Invoice Address:** Jaimik
- Delivery Address:** Jaimik
- Expiration:** 03/29/2025
- Quotation Date:** 02/27/2025 16:44:55

The order line for [test] Beerlao 640ml has a quantity of 4.00, unit price of 23.000.00 K, and total amount of 92,000.00 K.

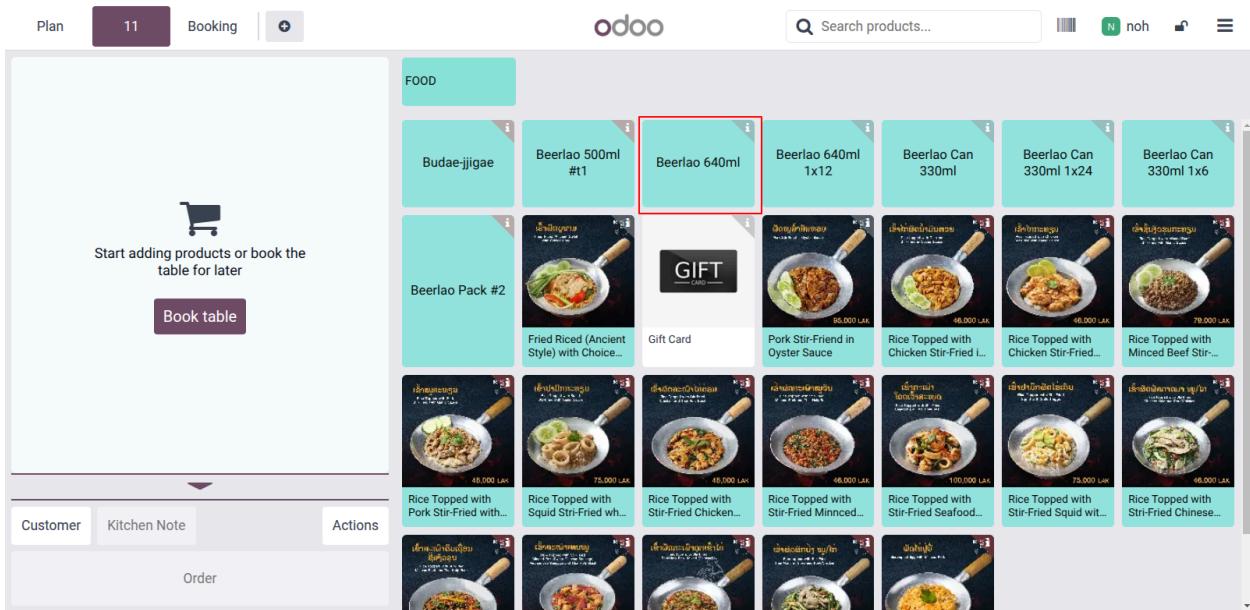

The bottom right corner shows a sidebar with a message from Jaimik: "Today at 4:45 PM • 23,000.00 K → 92,000.00 K (Total)" and "23,000.00 K → 92,000.00 K (Untaxed Amount)".

Screenshot of the Odoo Sales Quotation interface. The order line for [test] Beerlao 640ml has been modified to include two additional free gift products: [51] Budae-jjigae and [0400035] Beerlao Can 330ml 1x6. The quantities for these items are 1.00 each, and their unit prices and amounts are 0.00 K.

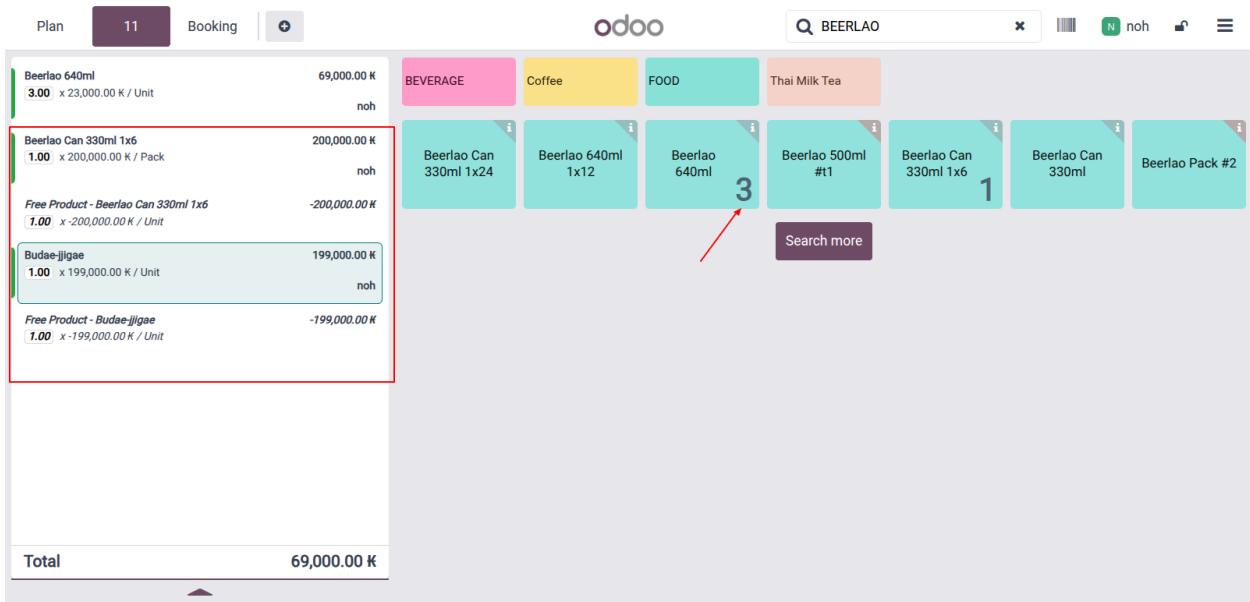

The bottom right corner shows a sidebar with messages from Jaimik: "Today at 4:45 PM • 23,000.00 K → 92,000.00 K (Total)" and "23,000.00 K → 92,000.00 K (Untaxed Amount)". Another message indicates "Sales Order created".

Same as auto apply multiple free gift products in POS.

## 1. Go to POS app and open POS screen

## 2. Add a minimum 4 quantity of “Beerlao 640ml” product in cart and we can see free products are auto applied in cart.

## 8. Discount coupon % or kip (unlimited amount of CODE)

- Create configuration as shown in screenshot.
- As you can see if you do not select limit usage boolean then one coupon code can be used multiple times.

The screenshot shows the Odoo interface for creating a new discount and loyalty program. The program is named 'Point 8'. Key configuration details include:

## 9. Discount coupon % or kip (limited amount of CODE)

- Create configuration as shown in screenshot.
- As you can see if you select limit usage boolean then one coupon code can be used only one time.

The screenshot shows the 'Discount & Loyalty' configuration screen in Odoo. A red box highlights the 'Program Type' field set to 'Coupons'. Another red box highlights the 'Limit Usage' checkbox, which is checked and set to 1 usage. The 'Program Name' is 'Point 9'. Other settings include 'Start Date' and 'End date', 'Company' (My Company (San Francisco)), 'Available On' (Sales and Point of Sale), and 'Point of Sale' (All PoS). The 'Rules & Rewards' section is expanded, showing a conditional rule: 'If minimum 1 item(s) bought' leads to 'Grant the value of the coupon'. The reward is a 10.00% discount on the order, exchangeable for 1.00 Coupon point(s).

- After this configuration, create a sale order and apply the coupon. If you are trying to use the same coupon on another sale order you will get this type of validation.

- Same as in POS, if you try to use the same coupon on another pos order you will get this type of validation.

The screenshot shows the Odoo POS interface. On the left, there's a summary of items added to the order:

|                    |                      |
|--------------------|----------------------|
| 1.00               | x 1,000.00 K / Unit  |
| Beerlao 640ml      | 92,000.00 K          |
| 4.00               | x 23,000.00 K / Unit |
| Beerlao 640ml 1x12 | 200,000.00 K         |
| 1.00               | x 200,000.00 K / Box |
| Beerlao Can 330ml  | 1,000.00 K           |
| 1.00               | x 1,000.00 K / Unit  |
| Taxes              | 150.00 K             |
| <b>Total</b>       | <b>493,150.00 K</b>  |

Below this is a grid for entering quantities and prices:

| Customer | Kitchen Note | Actions |   |  |
|----------|--------------|---------|---|--|
| Qty      |              | Price   |   |  |
| 1        | 2            | 3       | % |  |
| 4        | 5            | 6       |   |  |
| 7        | 8            | 9       |   |  |
| +/-      | 0            | .       |   |  |

On the right, a grid of food items is displayed. A specific item has a red box around it with the message "This coupon is expired (044d-e2d8-4a92)." A "GIFT CARD" button is also visible.

## 10. Discount coupon % or kip discount coupon (for next bill)

- Create configuration as shown in screenshot below.

The screenshot shows the Odoo Loyalty & Points configuration for a new program named "Point 10".

**Program Name:** Point 10

**Program Type:** Next Order Coupons (highlighted with a red box)

**Description:** Drive repeat purchases by sending a unique, single-use coupon code for the next purchase when a customer buys something in your store.

**Currency:** USD

**Pricelist:** Pricelist 1

**Points Unit:** Coupon point(s)

**Show points Unit:**

**Program trigger:** Automatic

**Use points on:** Future orders

**Start Date:**

**End date:**

**Limit Usage:**  to 1 usages

**Company:** My Company (San Francisco)

**Available On:** Sales, Point of Sale

**Point of Sale:** All PoS

**Rules & Rewards** tab is selected.

**Conditional rules:** If minimum 1 item(s) bought, Grant 1.00 Coupon point(s) per order.

**Rewards:** 15.00% discount on your order, In exchange of 1.00 Coupon point(s).

- After the create configuration please create sale order as shown in screenshot below

**S00040**

**Customer:** Gemini Furniture  
317 Fairchild Dr

## To apply Discounted Coupen in next bill in the POS

1. Start the POS session, add the required units of **Products** into the **Cart**.

The screenshot shows the Odoo POS interface. At the top, there are buttons for 'Plan' (purple), '1' (dark purple), and '1' (light blue). The Odoo logo is in the center, and a search bar says 'Search products...'. On the right, it shows 'Administrator' and a menu icon. The main area has a red border around the cart section. The cart contains one item: 'Amazing Water 1500ml' at 5 units, totaling 51,750.00 K. Below the cart, a table for 'Customer' shows rows for 1, 2, 3, 4, 5, 6, 7, 8, 9, and a row for '+/-'. The 'Actions' column contains 'Qty' and '%'. The 'Price' column lists various rice toppings with their prices. To the right is a grid of food items with images and names like 'Budae-jjigae', 'Beerlao Can 330ml 1x6', etc.

2. Select customer for creating order.

This screenshot is identical to the first one, showing the Odoo POS interface with the same cart contents and layout. The difference is that the 'Customer' column in the selection table is now highlighted with a red border, indicating it is selected for the next step.

The screenshot shows the Odoo POS interface. A search dialog is open with the query 'dhruv'. The results show a customer record for 'dhruv' with the following details:

- Name: dhruv
- Address: (empty)
- Contact: (empty)
- Balance: 0.00 Coupon point(s)  
E-wallet: 0.00 K  
1.00 Coupon point(s)

A red arrow points from the text 'Search more' to the 'dhruv' entry in the search results.

### 3. Confirm order and make Payment.

The screenshot shows the Odoo POS interface after confirming the order. The order summary is as follows:

|                           |                    |
|---------------------------|--------------------|
| Amazing Water 1500ml      | 51,750.00 K        |
| 5.00 x 10,350.00 K / Unit |                    |
| <b>Taxes</b>              | 6,750.00 K         |
| <b>Total</b>              | <b>51,750.00 K</b> |

The order details table shows the following items:

| Customer | Kitchen Note | Actions |
|----------|--------------|---------|
| dhruv    |              |         |
| 1        | 2            | 3       |
| 4        | 5            | 6       |
| 7        | 8            | 9       |
| +/-      | 0            | Qty     |
|          |              | %       |
|          |              | Price   |
|          |              | ⊗       |

The payment section is highlighted with a red box and contains the word 'Payment'.

The product catalog on the right side of the screen lists various food items with their names and prices:

- Budae-jjigae
- Amazing Water 1500ml
- Beerlao 500ml #1
- Beerlao 640ml
- Beerlao 640ml 1x12

4. We can see coupons are created and customer **loyalty Points** are added.  
Now customers have coupon code.

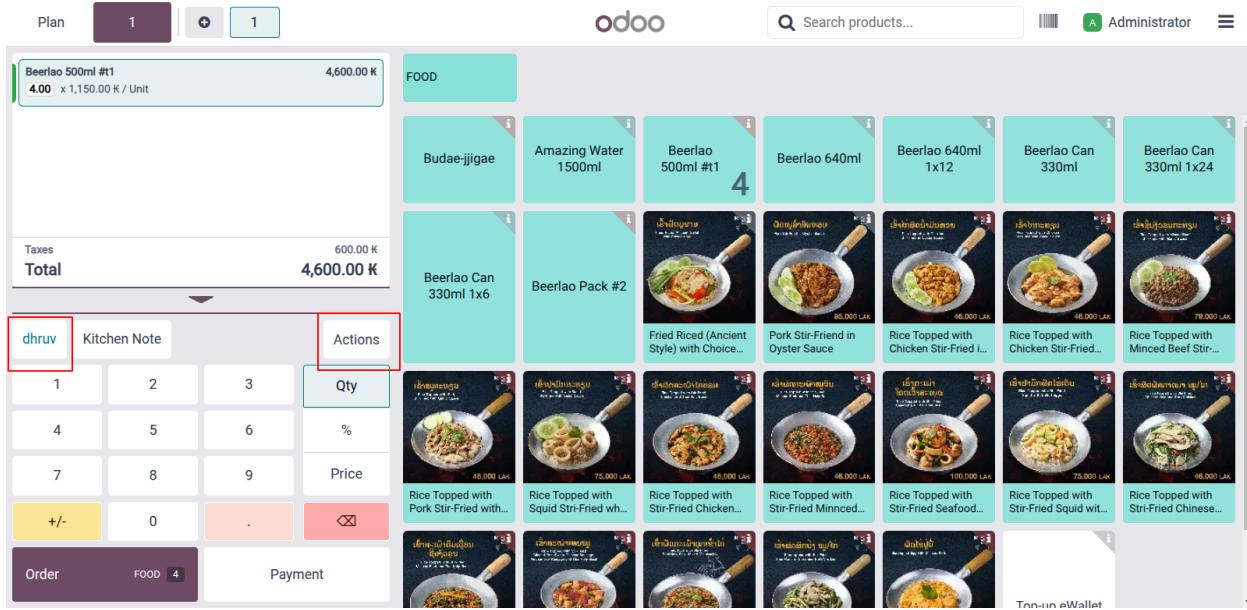

The screenshot shows the Odoo POS interface. On the left, a coupon is being created with the code '0446-eb9a-458b'. The balance is shown as '1 Coupon point(s)'. On the right, an email from 'Administrator' is displayed, titled 'Your reward coupon from Bonchon-PSN'. The email subject is 'P10: 0446-eb9a-458b'. It contains a message: 'Congratulations! Here is your reward. 15% off on your next purchase. Use this promo code: 0446-eb9a-458b. Minimum purchase of 2000 LAK. Thank you.' Below the message is a note: 'Powered by Odoo | l'.

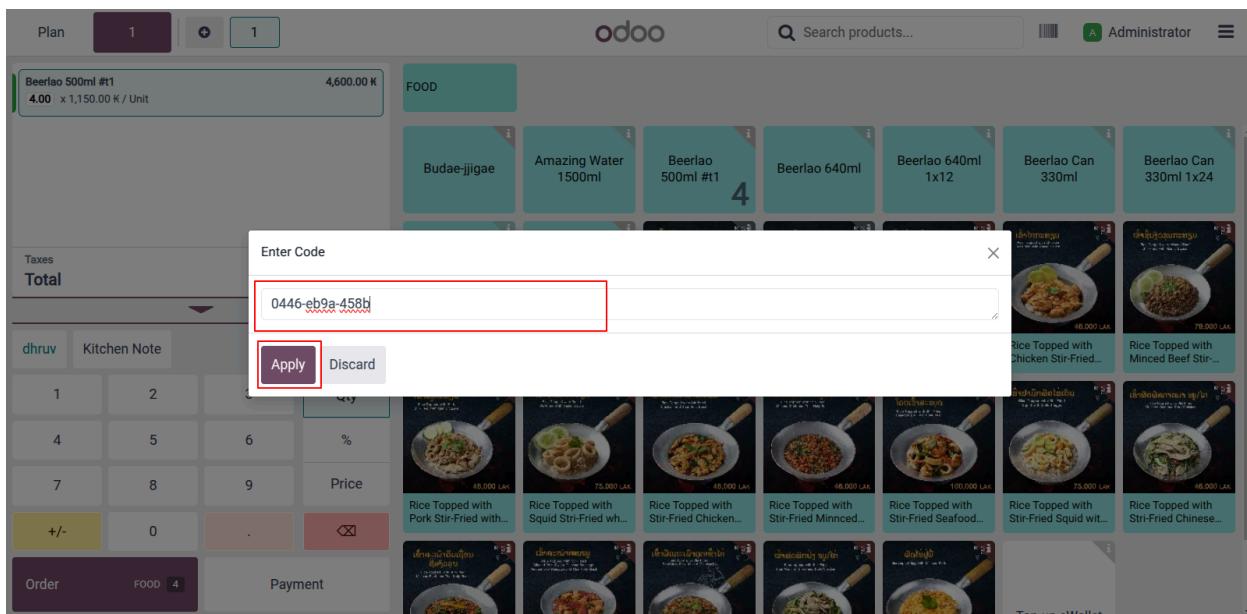

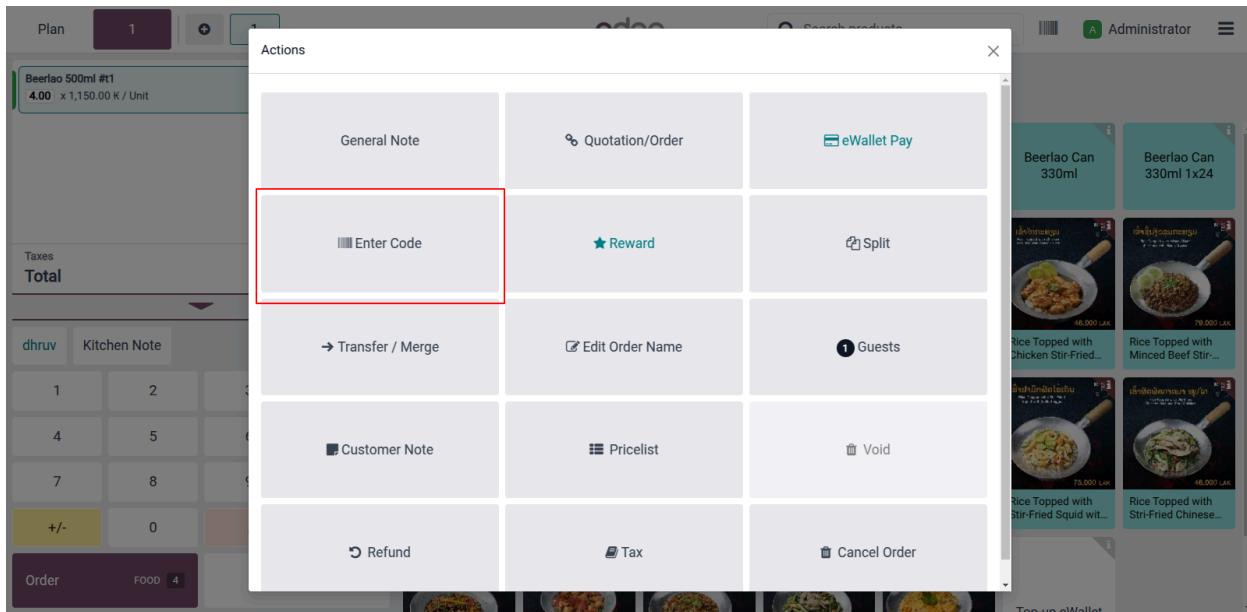

5. Now create a new Order and select a customer.

The screenshot shows the Odoo POS interface. A new order is being created. In the top left, there are buttons for 'Plan' (with value 1), 'Customer' (highlighted with a red box), 'Kitchen Note' (with value 1), and 'Actions'. The total amount '4,600.00 K' is highlighted with a red box. In the bottom left, there is a table for selecting a customer, with 'Customer' highlighted. The table has columns for 'Customer' (1, 4, 7, +/-), 'Kitchen Note' (2, 5, 8, 0), 'Actions' (3, ., Price, Qty%), and 'Price' (4, %). The 'Food' category is selected. The main area shows various food items with their names, descriptions, and prices. One item, 'Beerlao Can 330ml 1x6', is highlighted with a red box.

**6. Click on ‘Action’ button and click on ‘Enter Code’ button and enter coupon code and click on ‘apply’.**

## 7. We can see Discounted Promotion is applied.

The screenshot shows the Odoo Point of Sale (POS) interface. On the left, there's a summary of the order items:

|                          |      |                   |
|--------------------------|------|-------------------|
| Beerlao 500ml #11        | 4.00 | 4,600.00 K        |
| <b>15% on your order</b> |      | <b>-690.00 K</b>  |
| <b>Taxes</b>             |      | 510.00 K          |
| <b>Total</b>             |      | <b>3,910.00 K</b> |

A red box highlights the discount line: "15% on your order" followed by "1.00 x -690.00 K / Unit".

The main area shows a grid of food items under the heading "FOOD". One item, "Beerlao 500ml #11", has a red number "4" above it, indicating it has been added to the order 4 times. To the right of the grid, there's a section titled "Toppings" with various rice toppings listed with their prices.

## 11. Buy products and get point collection and

## 12. Enter the discount from the point collection

- Create configuration as per shown in screenshot below

The screenshot shows the 'Point 11 and Point 12' configuration in the Odoo Loyalty Cards module. The configuration includes:

- Program Name:** Point 11 and Point 12
- Program Type:** Loyalty Cards (Description: When customers make an order, they accumulate points they can exchange for rewards on the current order or on a future one.)
- Currency:** USD
- Pricelist:** (No selection)
- Points Unit:** Loyalty point(s)
- Show points Unit:** (unchecked)
- Program trigger:** Automatic
- Use points on:** Current & Future orders (selected)
- Start Date:** (No selection)
- End date:** (No selection)
- Limit Usage:** (unchecked)
- Company:** My Company (San Francisco)
- Available On:** Sales and Point of Sale
- Point of Sale:** All PoS

Below the main configuration, there are two tabs: Rules & Rewards and Communications. The Rules & Rewards tab is active, showing a conditional rule: "If minimum 1 item(s) bought" (Grant: 100.00 Loyalty point(s) per unit paid) and a reward: "10.00% discount on your order" (In exchange of: 200.00 Loyalty point(s)).

The 'Open: Conditional rules' dialog box displays the following configuration:

**CONDITIONS**

- Minimum Quantity: 1
- Minimum Purchase: 0.00 tax included

**AMONG**

- Product Domain: Match all records (120 record(s))
- Include archived: (unchecked)
- Edit Domain: (button)

**POINT(S)**

- Grant: 100.00 Loyalty point(s)
  - ? (link)
  - per order (radio button)
  - per \$ spent (radio button)
  - per unit paid (selected radio button)

**Buttons:** Save, Discard, Delete

At the bottom of the dialog box, there are three buttons: Grant, 10.00% discount on your order, and In exchange of.

**Open: Rewards**

---

**REWARD**

Reward Type ? Discount

Discount ? 10.00 % on

?  Order

Discount product ? 10% on your order

---

**Save** **Discard** **Delete**

- Now create a sale order as shown in screenshot below and once you confirm the sale order for this customer credit points.

The screenshot shows the Odoo Sales module interface. At the top, there's a navigation bar with icons for Sales, Orders, To Invoice, Products, Reporting, and Configuration. On the right, it shows "My Company (San Francisco)" and some user icons.

The main area displays a quotation for customer "S00043". The customer details are: Gemini Furniture, 317 Fairchild Dr, Fairfield CA 94535, United States – US12345674. The quotation template is selected. The order date is 01/24/2025 11:12:57, pricelist is 10 % Discount Pricelist (USD), and payment terms are Immediate.

The order lines include:

- Acoustic Bloc Screens (Wood) quantity 1.00, unit price 295.00, tax 15%, amount \$ 295.00
- Apple Pie quantity 1.00, unit price 12.00, tax 15%, amount \$ 12.00
- [E-COM11] Cabinet with Doors quantity 1.00, unit price 140.00, tax 15%, amount \$ 140.00

At the bottom of the order lines, there are buttons for "Add a product", "Add a section", "Add a note", and "Catalog".

To the right of the order lines, there are buttons for "Coupon Code", "Reward", and "Discount". Below these, the total breakdown is shown: Untaxed Amount: \$ 447.00, Tax 15%: \$ 67.05, Total: \$ 514.05.

A sidebar on the right shows a timeline of activities for "Mitchell Admin": Quotation confirmed, Sales Order created, and several entries related to the creation of a Sales Order.

## To apply Discounted Coupen in the POS

1. Start the POS session, add the required units of **Products** into the **Cart**.

The screenshot shows the Odoo POS interface. At the top, there are buttons for 'Plan' (yellow), '5' (purple), and another '5' (green). The title 'odoo' is followed by a search bar 'Search products...' and a user icon 'Administrator'. The main area is divided into sections: 'FOOD' (with items like Budae-jjigae, Beerlao 500ml #1, etc.), 'Customer' (with a grid for selecting customers), and a product catalog. A red box highlights the 'Customer' section, and another red box highlights the 'Amazing Water 1500ml' item in the cart.

2. Click on the 'Customer' button to select a customer.

This screenshot is identical to the first one but with a specific focus. The 'Customer' button in the grid has a red border, indicating it is selected or the next step in the process. The rest of the interface, including the cart and product catalog, remains the same.

The screenshot shows the Odoo POS interface. On the left, there's a summary table with items like 'Amazing Water 1500ml' and a total amount. Below it is a 'Customer' section with a grid. A modal dialog titled 'Create' is open, listing customers: 'MS BaiDee' (repeated), '027200 CENTRAL FOOD RETAIL CO.,LTD', 'Abe' (highlighted with a red border), 'Administrator', and 'Administrator KKM'. At the bottom of the dialog are 'Discard' and 'Save' buttons. To the right of the dialog, there's a product catalog with various food items.

**3. You can see automatically loyalty Points are added as per we configured.**

This screenshot shows the Odoo POS interface after an order has been placed. The receipt at the top shows a total amount of 31,050.00 K. Below the receipt, a red box highlights the 'Loyalty point(s)' section, which displays '+300 = 300'. The main area features a table for selecting a customer ('Abe' is selected) and a grid of food items. The grid includes various dishes like 'Beerlao Can 330ml 1x6', 'Beerlao Pack #2', and various rice toppings.

4. Click on Action button for apply discount reward.

The screenshot shows the Odoo POS interface. On the left, there's a summary of the order:

- Amazing Water 1500ml: 3.00 x 10,350.00 K / Unit
- Taxes: 4,050.00 K
- Total: 31,050.00 K
- Loyalty point(s): +300 = 300

Below the summary is a numeric keypad and an 'Actions' button, which is highlighted with a red box. To the right is a grid of food items categorized under 'FOOD'.

A modal dialog box titled 'Actions' is displayed over the POS interface. It contains several options:

- General Note
- Quotation/Order
- eWallet Pay
- Reward (highlighted with a red box)
- Split
- Transfer / Merge
- Edit Order Name
- Guests
- Customer Note
- Pricelist
- Void
- Refund
- Tax
- Cancel Order

The screenshot shows the Odoo POS interface. At the top, there are buttons for 'Plan' (purple), '1' (grey), and '1' (blue). The Odoo logo is in the center, and a search bar says 'Search products...'. On the right, it says 'Administrator'. Below the header, there's a table for an order with one item: 'Amazing Water 1500ml' at 3.00 units, totaling 31,050.00 K. To the right of the table is a 'FOOD' category with various items like Budae-jjigae, Amazing Water 1500ml, Beerlao 500ml #t1, etc. A modal window titled 'Available rewards' is open, showing 'P11 & P12' and 'Add "10% on your order"'. In the bottom left, there's a numeric keypad and buttons for 'Order', 'Food' (set to 3), and 'Payment'. On the right, there's a grid of food items with their names and prices.

**5. We can see reward (discount) is applied and loyalty Points are used by the customer we selected.**

This screenshot shows the same Odoo POS interface after applying the discount. The order table now shows a discount of '-3,105.00 K' and a total of 27,945.00 K. The modal window for rewards is no longer visible. The numeric keypad and other interface elements remain the same, showing the applied discount and the final total.

### 13. Buy product A at Y items discount X% (Buy product A at 5 items with 20% discount)

  - Sales Order created

This screenshot shows a modal dialog titled 'Available Rewards' for the '10 % Discount Pricelist (USD)' pricelist. It lists several reward options:

- Point 13 - 25% on Large Cabinet
- Point 1 - 20% on specific products
- Point 14 - \$ 1000 on Large Cabinet
- Loyalty Program - Free Product - Simple Pen
- Point 11 and Point 12 - 10% on your order

At the bottom of the dialog, there are 'Apply' and 'Discard' buttons. The 'Apply' button is highlighted with a red box.

The screenshot shows the Odoo Sales Quotation interface for quotation S00045. The customer information is Deco Addict, Addison Olson, located at 77 Santa Barbara Rd, Pleasant Hill CA 94523, United States – US12345673. The expiration date is 02/23/2025. The quotation template is "Quotation Template". The pricelist is "10 % Discount Pricelist (USD)" and the payment terms are "30 Days". The order lines table shows a product variant "[E-COM07] Large Cabinet" with a quantity of 5.00, unit price of 320.00, and taxes of 15%. A discount row shows "25% on Large Cabinet" with a quantity of 1.00, unit price of -400.00, and taxes of 15%. The total amount is \$1,600.00. Below the table are buttons for "Add a product", "Add a section", "Add a note", and "Catalog". On the right, there are buttons for "Coupon Code", "Reward", and "Discount". The total amount is listed as Untaxed Amount: \$ 1,200.00, Tax 15%: \$ 180.00, and Total: \$ 1,380.00.

## To apply Discount in the POS

1. Start the POS session, add the 4 units of Products into the Cart.

The screenshot shows the Odoo POS interface. In the top left, it says "Plan" and "11 Booking". The top center has the Odoo logo and a search bar "Search products...". The top right shows a user icon "noh" and other navigation icons. The main area shows a cart summary: "Beerlao 640ml" with a quantity of "4.00" and a total price of "92,000.00 K". Below this is a table for adding items: "Customer" (1), "Kitchen Note" (2), "Actions" (3), "Qty" (4), "Price" (5), and buttons for "+/-" (6), "0" (7), ".", (8), and "☒" (9). To the right is a grid of food items under categories BEVERAGE, COFFEE, and FOOD. One item, "Beerlao 640ml", is highlighted with a red box and a quantity of "4" above it. Other items include "Budae-jjigae", "Beerlao 500ml #1", "Beerlao 640ml 1x12", "Beerlao Can 330ml", "Beerlao Can 330ml 1x24", "Beerlao Can 330ml 1x6", "Beerlao Pack #2", "Fried Riced (Ancient Style) with Choice...", "Pork Stir-Fried in Oyster Sauce", "Rice Topped with Chicken Stir-Fried...", "Rice Topped with Minced Beef Stir-Fried...", "Rice Topped with Pork Stir-Fried with...", "Rice Topped with Squid Stri-Fried wh...", "Rice Topped with Stir-Fried Chicken...", "Rice Topped with Stir-Fried Minnced...", "Rice Topped with Stir-Fried Seafood...", "Rice Topped with Stir-Fried Squid wit...", "Rice Topped with Stri-Fried Chinese...", and "Rice Topped with Stri-Fried Minced...". Each item has a small image and its price in LAK.

2. Then click on ‘Action’ button and click on ‘Reward’ button to apply Discount.

The screenshot shows the Odoo POS interface. On the left, there's a summary table for a 'Beerlao 640ml' item at 4 units, totaling 92,000.00 K. Below it is a grid for entering customer details (Customer, Kitchen Note) and payment information (Qty, %, Price). A red box highlights the 'Actions' button in the top right corner of this grid. To the right is a menu bar with categories: BEVERAGE, Coffee, FOOD, and Thai Milk Tea. Under the FOOD category, there's a section for 'Beerlao' items, with one item labeled '4'. Below this is a grid of various food items with their names and prices in LAK. The bottom of the screen shows the order summary again and a payment section.

This screenshot shows the 'Actions' menu that appears when clicking the 'Actions' button in the previous screenshot. The menu has several options: General Note, Quotation/Order (with a red box around the 'Reward' button), Reset Programs, Enter Code, Split, Transfer / Merge, Guests, Customer Note, Pricelist, Refund, Switch to Takeaway, Cancel Order, and Add Guest. The 'Reward' button is specifically highlighted with a red box.

**3. Click on the Discount reward line, then we can see Discount is applied on Order.**

The screenshot shows the Odoo POS interface. At the top, there's a header with 'Plan' (purple), '11' (white), 'Booking' (grey), and a '+' button. The Odoo logo is in the center, and a search bar says 'Search products...'. A user icon 'noh' is on the right. Below the header, there's a product list with categories: BEVERAGE (Budae-jjigae, Beerlao 500ml #11, Beerlao 640ml, Beerlao 640ml 1x12, Beerlao Can 330ml, Beerlao Can 330ml 1x24), FOOD (Thai Milk Tea), and DRINKS (Beerlao 640ml). A modal window titled 'Available rewards' is open, showing '13 Add "25% on Beerlao 640ml"'. An arrow points from the text 'Add "25% on Beerlao 640ml"' to the discount line in the order summary. The order summary table includes columns for Customer, Kitchen Note, Qty, %, Price, and Actions. The total is listed as 'Total 92,000.00 K'. The payment section shows 'Order BEVERAGE 4'.

This screenshot shows the same Odoo POS interface after applying the discount. The discount line '25% on Beerlao 640ml -23,000.00 K' is highlighted with a red box. The total order amount is now '69,000.00 K'. The rest of the interface remains the same, including the product list, reward modal, and order summary table.

## 14. Buy all A at Y items and a discount of 10,000 kip.

- Create Configuration as shown in screenshot.

The screenshot shows the Odoo interface for creating a new loyalty program named 'Point 14'. The configuration includes:

- Program Type:** Promotions (Set up conditional rules on the order that will give access to rewards for customers. Each rule can grant points to the customer he will be able to exchange against rewards)
- Currency:** USD
- Pricelist:** Current order
- Points Unit:** Promo point(s)
- Show points Unit:**
- Program trigger:** Automatic
- Use points on:** Current order
- Conditional rules:** If minimum 5 item(s) bought (Grant: 1.00 Promo point(s) per order, Among: [E-COM07] Large Cabinet)
- Rewards:** 1,000.00\$ discount (In exchange of: 1.00 Promo point(s), Applied to: [CONS\_89957] Bolt, [E-COM07] Large Cabinet)

The dialog shows the configuration for the conditional rule 'If minimum 5 item(s) bought':

| CONDITIONS   | POINT(S)  |
|--|---|
| Minimum Quantity: 5  | Grant: 1.00 (Promo point(s))  |
| Minimum Purchase: 0.00 (tax excluded)                          | ? <input checked="" type="radio"/> per order<br><input type="radio"/> per \$ spent<br><input type="radio"/> per unit paid |

## To apply 1000 Kip Discount in the POS

1. Start the POS session, add the 5 units of **Products** into the **Cart**.

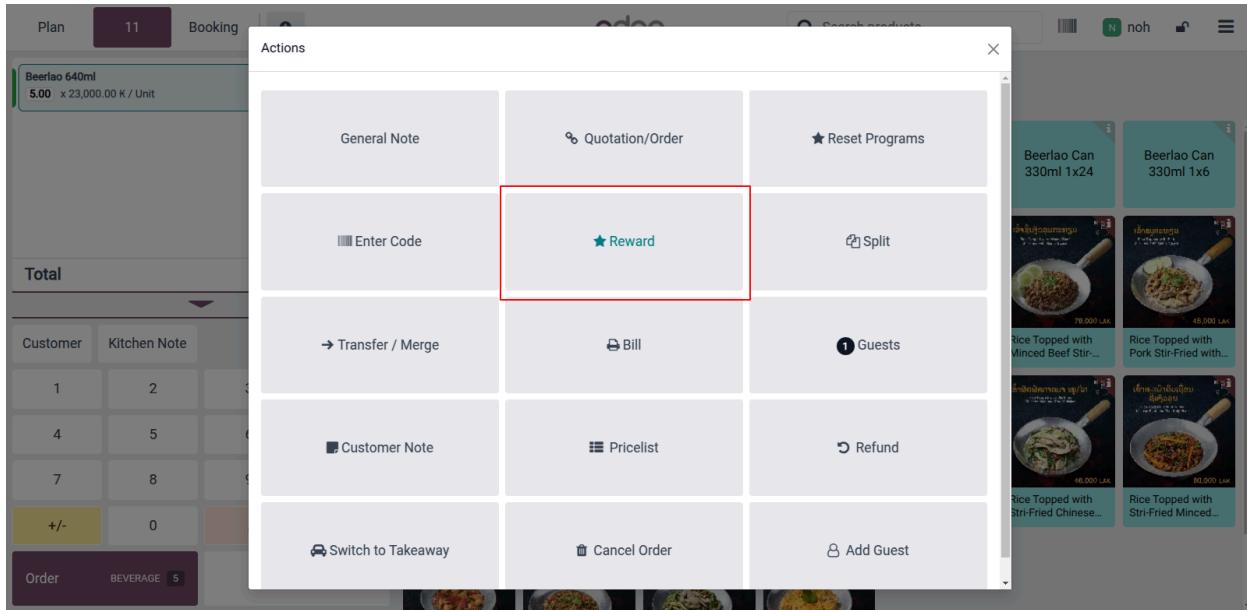

The screenshot shows the Odoo POS interface. In the top left, there's a header with 'Plan' (highlighted), '11' (highlighted), 'Booking', and a '+' button. The top right features the 'odoo' logo, a search bar ('Search products...'), and some icons. The main area has a grid of menu items under categories: BEVERAGE, Coffee, FOOD, and Thai Milk Tea. A product card for 'Beerlao 640ml' is selected and highlighted with a red border. The card shows '115,000.00 K' and '5.00 x 23,000.00 K / Unit'. Below the grid, a table shows the current cart items:

| Customer | Kitchen Note | Actions |
|----------|--------------|---------|
| 1        | 2            | 3       |
| 4        | 5            | 6       |
| 7        | 8            | 9       |
| +/-      | 0            | .       |

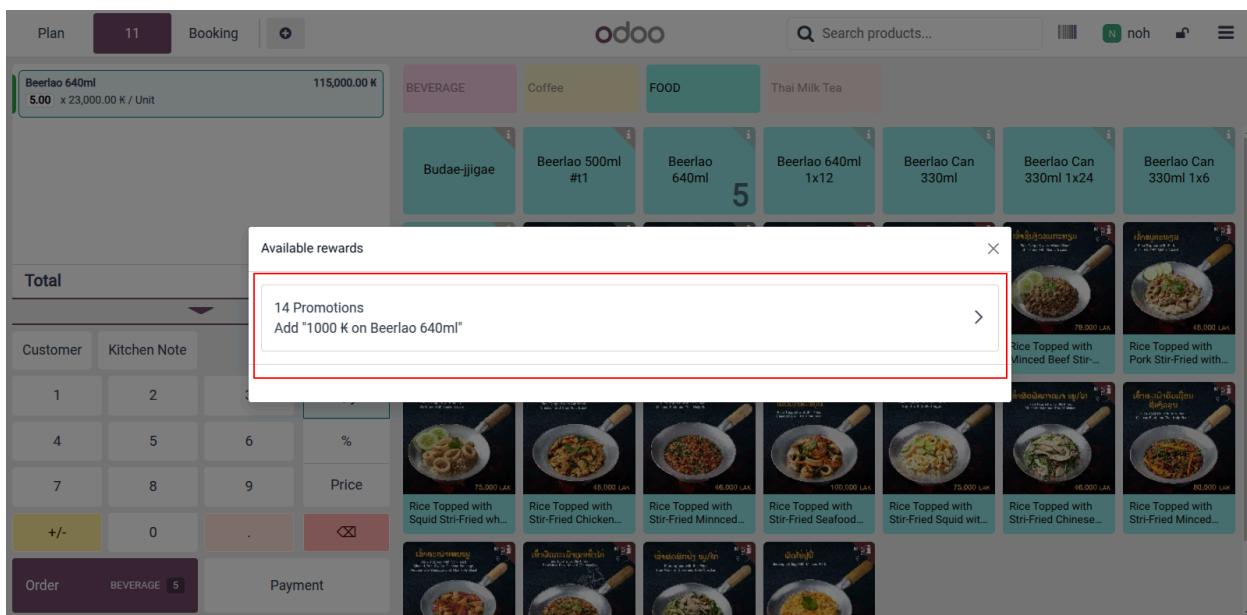

Below the table, there are buttons for 'Order', 'BEVERAGE', and 'Payment'. The total cart value is displayed as '115,000.00 K'.

2. Then click on '**Action**' button and click on '**Reward**' button to apply Discount.

This screenshot is identical to the first one, showing the Odoo POS interface with the same cart item and table. However, the 'Actions' button in the table header is now highlighted with a red box, indicating the next step in the process.

**3. Click on the Discount reward line, then we can see Discount is applied on Order.**

# To apply Fixed Price on specific Product with Pricelist in the POS

1. Firstly we have to create a Pricelist for it. As shown in screenshots.

The screenshot shows the Odoo Point of Sale interface. At the top, there is a navigation bar with links for Point of Sale, Dashboard, Orders, Products, Reporting, and Configuration. Below the navigation bar, a message bar indicates 'Pricelist created' by user 'Jaimik' at 3:14 PM. The main content area is titled '15 point Pricelist'. It displays currency 'LAK' and company 'Khang - NB'. A table lists a single rule: 'Beerlao 500ml #t1' with a price of '2,000.00 K'. There are tabs for 'Price Rules', 'Rental rules', and 'Ecommerce'. On the right side, there are buttons for 'Send message', 'Log note', 'Activities', and search/filter options.

This screenshot shows the 'Open: Pricelist Rules' dialog box overlaid on the main Pricelist screen. The dialog box has several sections: 'Apply To?' (Product selected), 'Product?' (Beerlao 500ml #t1 selected), 'Min Qty?' (0.00), 'Validity Period?' (empty), 'Price Type?' (Fixed Price selected), 'Fixed Price' (2,000.00 K per Unit), and 'COMPANY SETTINGS' (Currency LAK, Company Khang - NB). A red arrow points to the 'Product?' field in the dialog box. At the bottom of the dialog box are 'Save' and 'Discard' buttons.

The screenshot shows the Odoo Point of Sale interface. At the top, there are tabs for Point of Sale, Dashboard, Orders, Products, Reporting, and Configuration. Below the tabs, a navigation bar includes New, Products, Beerlao 500ml #t1, Pricelists, Go to Website, On Hand, Forecasted, Bill of Materials, Documents, Sold, More, and a search bar. A sidebar on the right shows a message from Jaimik about a price change.

The main area displays a product card for "Beerlao 500ml #t1". The "Sales Price" field is set to 5,000.00 K per Unit. Other fields shown include Invoicing Policy (Ordered quantities), Track Inventory (By Quantity), Product Type (Goods), Category (All), Item Code, Barcode (8851907109776), and Additional Barcodes.

## 2. Go to Your POS settings and Configure the Default and Available pricelist this pricelist we created.

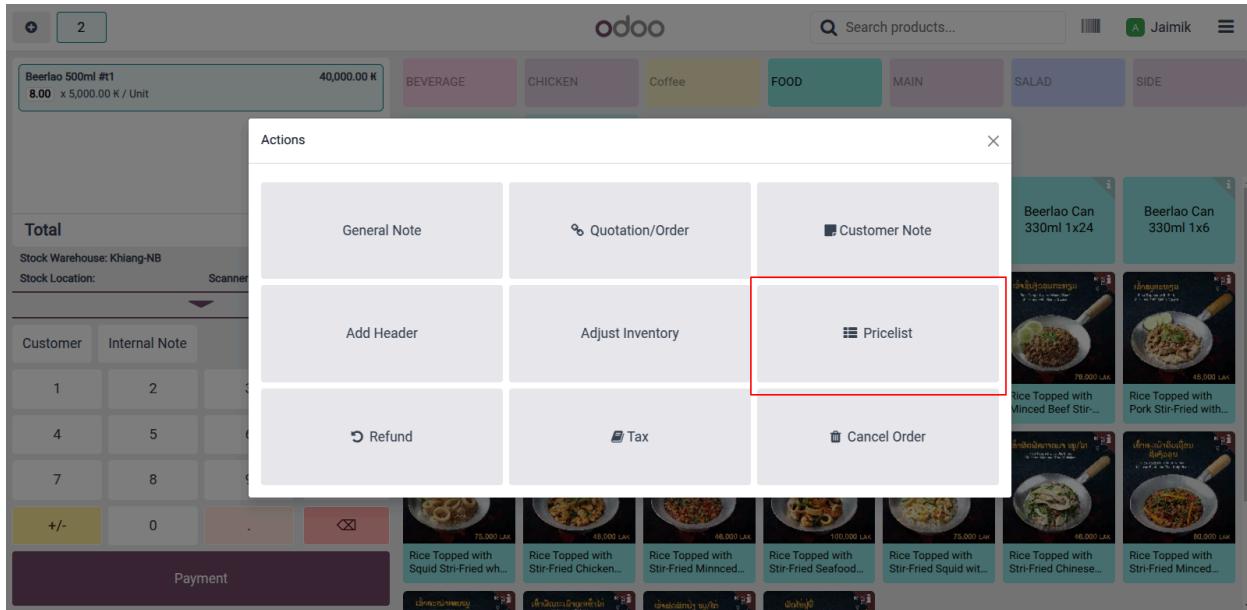

The screenshot shows the Odoo Point of Sale Settings page under the Pricing section. The left sidebar lists various settings categories like General Settings, Sales, Rental, etc. The main area shows the "Pricing" configuration. Under "Flexible Pricelists", the "Available" and "Default" dropdowns are both set to "15 point Pricelist (LAK)". Other options shown include Price Control, Product Prices (set to Tax-Included Price), Global Discounts, Promotions, Coupons, Gift Card & Loyalty Program, Line Discounts, and Pricer.

**3. Start a POS session and add 8 units of ‘Beerlao 500ml’ Product into the cart which’s price per unit is 50,000 Kip.**

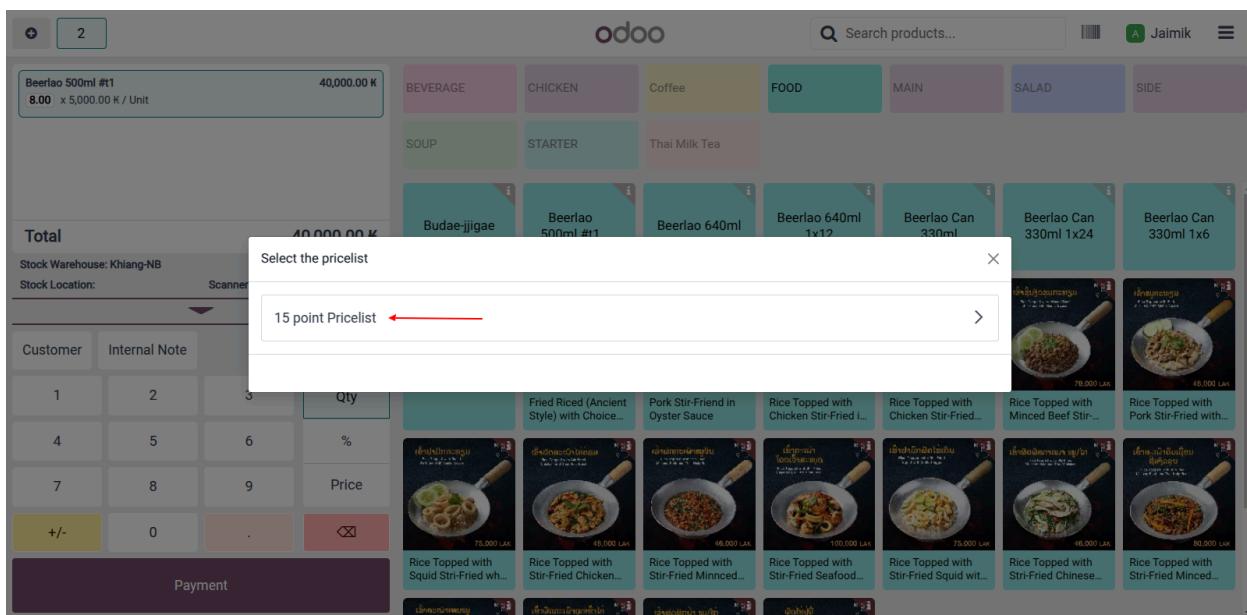

The screenshot shows the Odoo POS interface. On the left, a sidebar displays a product list with a red arrow pointing to the total price of 40,000.00 K. Below this is a table for entering customer details and a payment section. On the right, a grid of food items is shown under the 'FOOD' category. A red arrow points to the number '8' indicating the quantity of Beerlao 500ml added to the cart.

**4. To apply Pricelist Click on ‘Action’ button and then click on ‘Pricelist’.**

This screenshot is similar to the previous one but with a red box highlighting the 'Actions' button in the customer table. This indicates the step where the user is about to apply a pricelist by clicking on this button.

## 5. Select your appropriate Pricelist we have configured.

6. After that we can see products per unit price is updated. 'Beerlao 500ml' Product per unit price is **2000 Kip**.

The screenshot shows the Odoo POS interface. On the left, a detailed view of a transaction line item for 'Beerlao 500ml #1' is displayed, showing a quantity of 8 and a unit price of 2,000.00 K. A red arrow points from this line item to the total amount of 16,000.00 K. On the right, a grid of food items is shown under the 'FOOD' category. One item, 'Beerlao Pack #2', has a red number '8' above it, indicating it was just scanned. The interface includes sections for Customer, Internal Note, Actions, Qty, %, and Price, along with a Payment button.

16. Buy A,B,C,... the total prices are X%. Example: Buy A 2 items of products and C 3 items of brands, the total discount is 10%  
 - Create Configuration as shown in screenshot.

The screenshot shows the Odoo Configuration interface for creating a new loyalty program named 'Point 16'. The configuration includes fields for Program Type (Promotions), Currency (USD), Points Unit (Promo point(s)), and Show points Unit (checkbox). Under Program trigger, 'Automatic' is selected, and 'Use points on' has 'Current order' checked. The 'Rules & Rewards' section contains two tabs: 'Conditional rules' and 'Rewards'. In 'Conditional rules', a rule is defined: 'If minimum 1 item(s) bought if minimum 1,000,000.00 spent Among: [CONS\_0001] Whiteboard Pen, [CONS\_0002] Simple Pen, [E-COM08] Storage Box'. In the 'Rewards' tab, a reward is set: 'Grant 1.00 Promo point(s) per unit paid' and '10.00% discount In exchange of 1.00 Promo point(s) Applied to: [CONS\_0001] Whiteboard Pen, [CONS\_0002] Simple Pen, [E-COM08] Storage Box'.

Tax 15%: \$ 150.00  
Total: \$ 901,150.00

# To apply Discount in the POS

1. Firstly we have to create Promotion as shown in the screen shot.

The screenshot shows the Odoo Point of Sale interface under the 'Discount & Loyalty' section. A promotion named 'Promotion 16' is being edited. The configuration includes:

- Program Type:** Promotions
- Currency:** LAK
- Pricelist:** Pricelist 16
- Points Unit:** Promo point(s)
- Show points Unit:** Points
- Program trigger:** Automatic
- Use points on:** Current order

**Rules & Rewards**

**Conditional rules:**

- If minimum 1 item(s) bought
- If minimum 5,000.00 spent
- Grant: 1.00 Promo point(s) per order
- Among: [323232] Beerlao Can 330ml, [test] Beerlao 640ml

**Rewards:**

- 10.00% discount
- In exchange of: 1.00 Promo point(s)
- Applied to: [323232] Beerlao Can 330ml, [test] Beerlao 640ml

The screenshot shows the 'Open: Conditional rules' dialog box for the 'Promotion 16' promotion. It displays the following configuration:

**CONDITIONS**

- Minimum Quantity: 1
- Minimum Purchase: 5,000.00 (highlighted with a red box)
- tax included

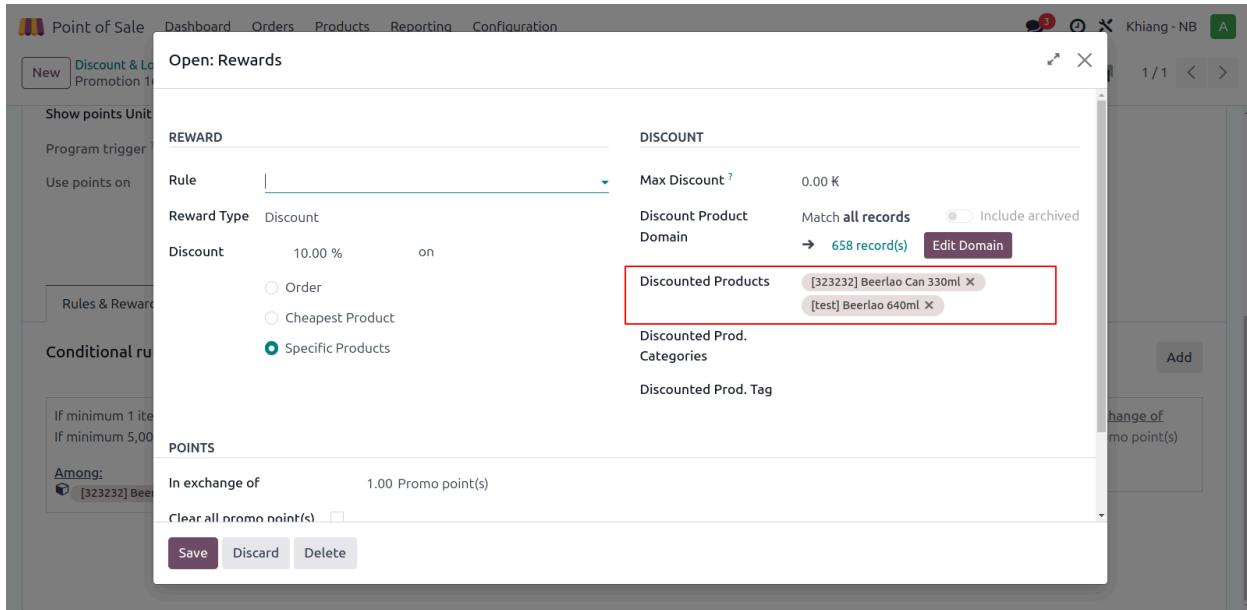

**AMONG**

- Product Domain: Match all records (Include archived: off)
- 658 record(s) Edit Domain
- Products: [323232] Beerlao Can 330ml, [test] Beerlao 640ml (highlighted with a red box)

**POINT(S)**

- Grant: 1.00
- Promo point(s)
- per order (radio button selected)
- per K spent
- per unit paid

**Buttons:** Save, Discard, Delete

## 2. Start POS session and add in to cart as per Appropriator configured product in the promotion

### 3. Click on 'Action' button and 'Reward' button to apply discount.

The screenshot shows the Odoo POS interface. At the top left, there's a receipt section with items: Beerlao 640ml (4.00 x 23,000.00 K / Unit) and Beerlao Can 330ml (2.00 x 1,000.00 K / Unit). The total is 94,000.00 K. Below the receipt is a table for entering customer details and internal notes. To the right of the table is a grid of food items categorized by color-coded boxes: BEVERAGE, CHICKEN, Coffee, FOOD, MAIN, SALAD, and SIDE. A red box highlights the 'Actions' button in the table header. The main area displays various dishes like Budae-jjigae, Beerlao 500ml #t1, Beerlao 640ml, Beerlao Can 330ml, etc., each with a small image, name, price, and description.

This screenshot is similar to the previous one but includes a modal dialog box titled 'Available rewards'. The dialog contains the text 'p16 Add "10% on specific products"' with a red arrow pointing to it. The rest of the interface is identical to the first screenshot, showing the receipt, customer table, and food catalog.

**4. We can see discounts applied on order.**

**17. Buy A, B, C,... the total discount is X kip. For example: buy 1 item of product A and 5 items of brand C, the total discount is 5000 kip**

- Create configuration as shown in screenshot.

The screenshot shows the 'Discount & Loyalty' configuration screen. The main title is 'Point 17'. Under 'Program Type', it is set to 'Promotions' (which is described as setting up conditional rules for rewards). The 'Currency' is 'USD'. The 'Program trigger' is 'Automatic'. Under 'Use points on', the 'Current order' radio button is selected. The 'Show points Unit' is checked. The 'Points Unit' is 'Promo point(s)'. The 'Program Name' is 'Point 17'. The 'Start Date' and 'End date' fields are empty. The 'Limit Usage' checkbox is unchecked. The 'Company' is 'My Company (San Francisco)'. Under 'Available On', both 'Sales' and 'Point of Sale' are checked. Under 'Point of Sale', 'All PoS' is selected. The 'Rules & Rewards' tab is active. In the 'Conditional rules' section, there is one rule: 'If minimum 1 item(s) bought' and 'If minimum 1,000,000.00 spent'. The 'Grant' is '1.00 Promo point(s) per unit paid'. In the 'Among' section, three products are listed: '[CONS\_0001] Whiteboard Pen', '[CONS\_0002] Simple Pen', and '[E-COM08] Storage Box'. In the 'Rewards' section, there is one reward: '10,000.00\$ discount' (in exchange of 1.00 Promo point(s)). The 'Applied to' section lists the same three products: '[CONS\_0001] Whiteboard Pen', '[CONS\_0002] Simple Pen', and '[E-COM08] Storage Box'.

The dialog box is titled 'Open: Conditional rules'. It has two main sections: 'CONDITIONS' and 'POINT(S)'. In the 'CONDITIONS' section, 'Minimum Quantity' is set to 1, and 'Minimum Purchase' is set to 1,000,000.00 tax included. In the 'AMONG' section, 'Product Domain' is set to 'Match all records' (with 141 records found) and 'Include archived' is unchecked. The 'Edit Domain' button is present. Under 'Products', three products are listed: '[CONS\_0001] Whiteboard Pen', '[CONS\_0002] Simple Pen', and '[E-COM08] Storage Box'. In the 'POINT(S)' section, 'Grant' is set to 1.00 'Promo point(s)'. The 'per unit paid' radio button is selected. There are also options for 'per order' and 'per \$ spent'. At the bottom of the dialog, there are 'Save', 'Discard', and 'Delete' buttons, along with an 'Applied to:' field which is currently empty.

**Open: Rewards**

Point 18 Sale order

## To apply Free Products Promotion in the POS

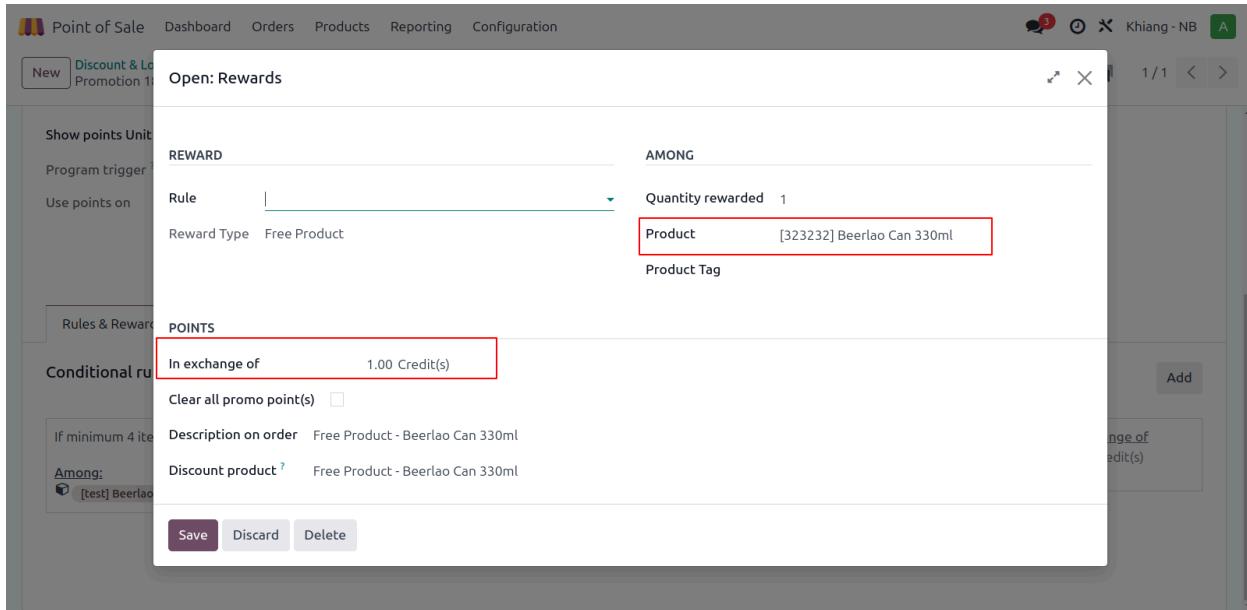

1. First we have to **configure Promotion** as per shown in the **screen shot** given below.

The screenshot shows the 'Promotion 18' configuration page. Key settings include:

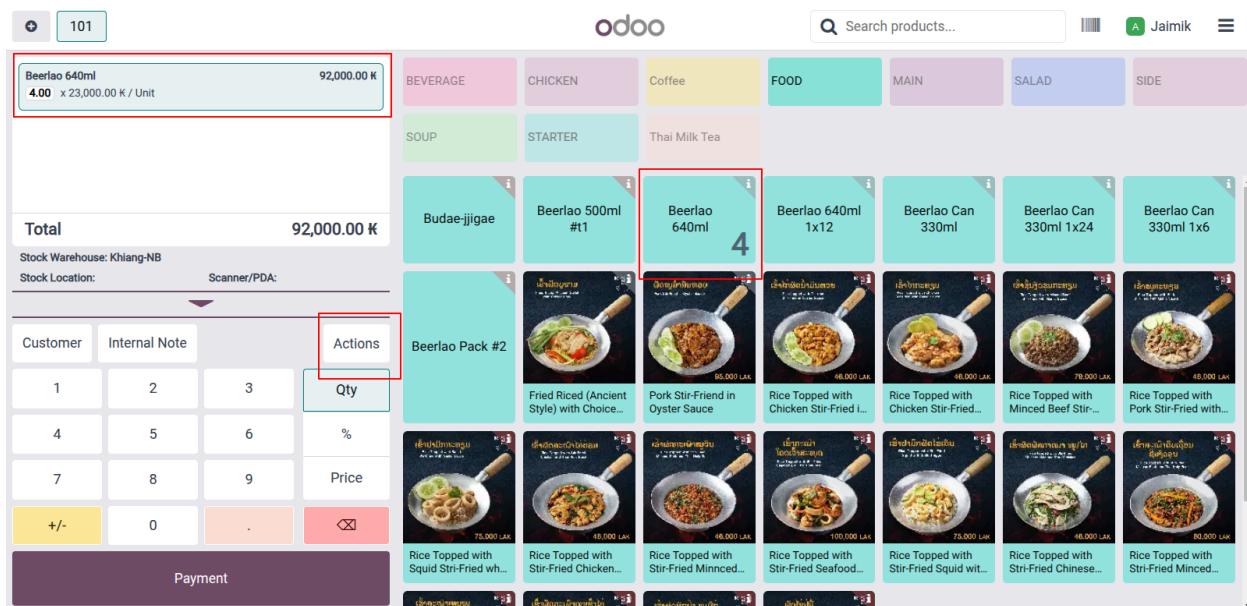

- Program Type:** Buy X Get Y (highlighted with a red box)
- Grant:** 1 credit for each item bought then reward the customer with Y items in exchange of X credits.
- Currency:** LAK
- Pricelist:** [Pricelist]
- Points Unit:** Credit(s)
- Show points Unit:** [checkbox]
- Program trigger:** Automatic
- Use points on:** Current order (radio button selected)
- Rules & Rewards:** Conditional rules and Rewards sections are visible, both highlighted with red boxes.
- Conditional rules:** If minimum 4 item(s) bought, Grant 1.00 Credit(s) per order, Among: [test] Beerlao 640ml.
- Rewards:** Free product, In exchange of 1.00 Credit(s), [323232] Beerlao Can 330ml.

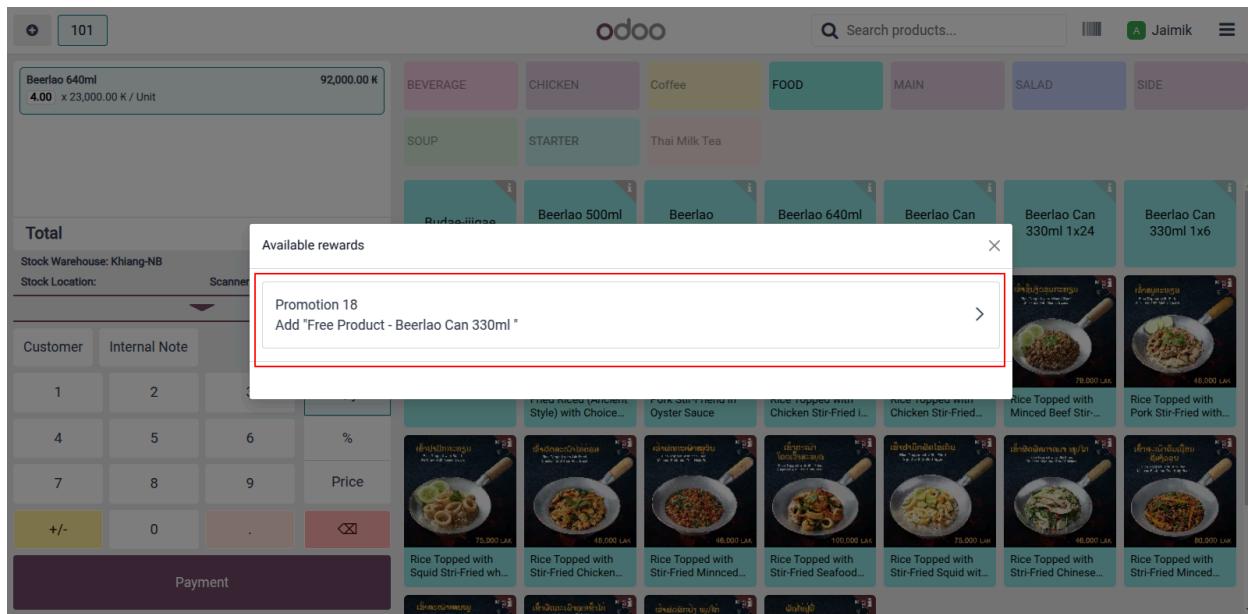

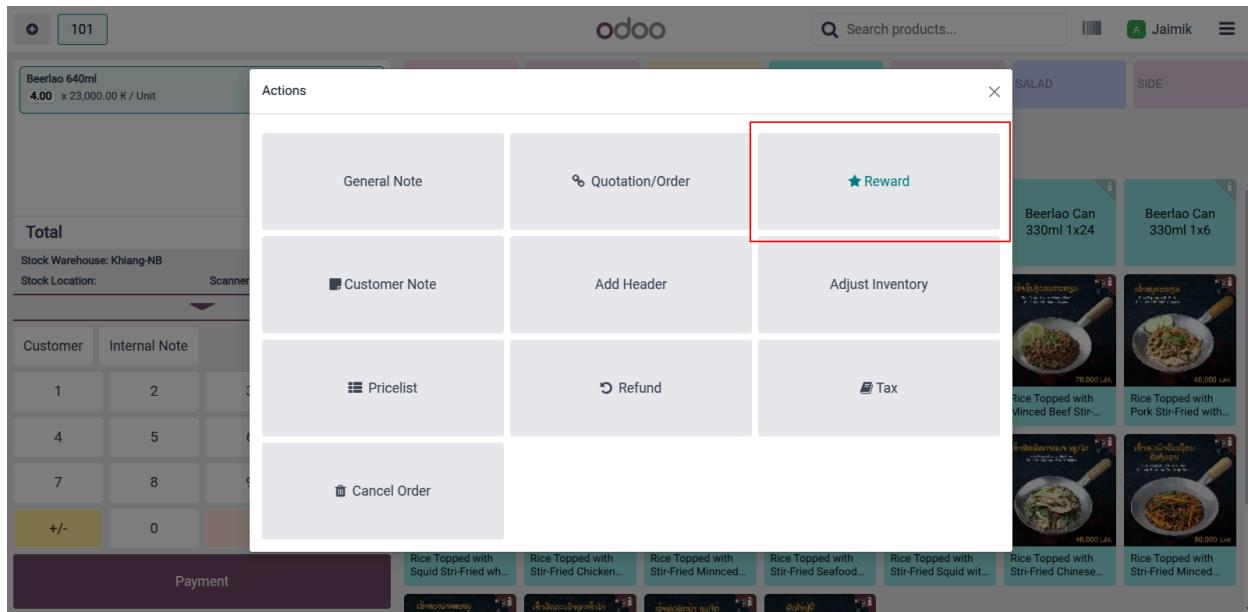

The screenshot shows the 'Open: Conditional rules' dialog for 'Promotion 18'. Key settings include:

- Program Name:** Promo (highlighted with a red box)
- Program Type:** Buy X Get Y
- Grant:** 1.00 Credit(s) per order (radio button selected)
- Conditions:** Minimum Quantity 4 (highlighted with a red box)
- AMONG:** Product Domain: Match all records (radio button selected), 659 record(s), Edit Domain, Products: [test] Beerlao 640ml (highlighted with a red box).
- Point(s):** Credit(s)

**2. Start the POS session and add 4 units of ‘Beerlao 640ml’ Product in to cart. And click the ‘Action’ button to apply for a reward.**

3. As per the screenshot **Free Product** is added in to cart.

The screenshot shows the Odoo POS interface. On the left, a cart summary table lists items with their quantities, unit prices, and total amounts. A red box highlights a row for 'Beerlao Can 330ml' at 1,000.00 K. To the right of the cart is a grid of food products categorized into BEVERAGE, CHICKEN, Coffee, FOOD, MAIN, SALAD, and SIDE. Each category has a sub-grid of specific items like Budae-jjigae or Beerlao 640ml. The main grid also includes a sub-grid of rice toppings. The total cart value is 92,000.00 K.

|   | Quantity    | Unit Price                  | Total Amount       |
|---|-------------|-----------------------------|--------------------|
| Beerlao 640ml                           | 4.00        | x 23,000.00 K / Unit        | 92,000.00 K        |
| Beerlao Can 330ml                       | 1.00        | x 1,000.00 K / Unit         | 1,000.00 K         |
| <b>Free Product - Beerlao Can 330ml</b> | <b>1.00</b> | <b>x -1,000.00 K / Unit</b> | <b>-1,000.00 K</b> |
| <b>Total</b>                            |             |                             | <b>92,000.00 K</b> |

Stock Warehouse: Khiang-NB  
Stock Location: Scanner/PDA:

19. **Buy A,B,C,.. then you can buy A,B,C,... for X Kip. Example: If you buy 3 items of product A, you can buy 2 items of product C for 10000 Kip each.**

- similar as point 17.

20. **Buy A,B,C,... then buy A,B,C,... and get X% discount. For example: Buy 2 items of product B and 1 item of product C and then buy 2 items of brand A and get 15% discount**

- similar as point 16.
